Bricks & Mortar

The Regent Apartments Building is an exciting project for us: it is urban, enjoys a great setting by the Wenlock Basin and last but not least is on our own office's doorstep!

We love the robust architecture of the warehouses which used to line the Canal – their solidity, their simple detailing stand the test of time.

The Regent Apartments Building emulates this spirit with its engineering brick façade which delivers a firm and confident appearance on this important corner site.

The full height windows and recessed balconies create a clear and elegant rhythm whilst the polished aluminium cladding of the penthouses add a sparkling crown at the top of the building.

It is a building we are very proud of and look forward to going past everyday on our way to work.
