- What's important is that you must be buying a new-build home and you must have a 5% deposit

- The government will provide you with an equity loan of up to 20% of the value of a new-build property
- The loan is interest free for the first five years. From year six a fee of 1.75% is payable on the equity loan, which rises annually by Retail Price Index inflation plus 1%
- The equity loan can be repaid at any time within 25 years (or the term of the mortgage), or on sale of the property

- Help to Buy is only available on capital repayment mortgages. It's not available on interest only loans
- Help to Buy will only be available on properties which are occupied by the individual or individuals taking out the mortgage. You cannot buy a property using Help to Buy and then rent it out

- You don't need to be a first-time buyer
- Our independent Financial Advisor can provide information on the lenders supporting the scheme and, subject to meeting that lender's criteria, help you gain a mortgage
