

The Penthouse /

Designed by Ian Simpson Architects, the 39th floor offers two unique penthouse apartments, created to deliver an uncompromised level of sophistication and quality.

The penthouse experience starts on level 37 where you will enjoy the exclusivity of a private apartment lobby. From here you can walk up the beautiful stone spiral staircase to the breathtaking accommodation on the 39th level or if you feel you deserve a little extra luxury you can enjoy the experience of the beautifully designed, bespoke lift.

To make the penthouse apartments even more special, they feature state of the art lighting and entertainment systems installed by SMC, one of the UK's foremost custom AV installation specialists.

Lighting in the apartments is controlled by a Lutron interactive system which allows you to create several different moods using simple keypads installed in each room. Integrated, infrared controlled, media, home cinema displays and ceiling mounted speakers enable residents to harness technology, making relaxation an artform.

- 1 Living Area
- 2 Master Bedroom
- 3 Living Area
- 4 Kitchen
- 5 Sky Garden
- 6 En-suite
- 7 Dressing Room
