“ GENEROUS LANDSCAPED TERRACES WITH COMMANDING VIEWS ”

“Chelsea Riverview is wondrously located beside The Thames and blessed with magnificent parks and gardens immediately on its doorstep. This is a part of London that enjoys stunning river and London views, green open spaces and an evolving community that enchantingly gets more and more interesting year after year. As an architect who loves to visit this neighbourhood and who has worked in this area for many years, I feel this is a place to put down roots and a place to surrender to the temporal nature and magic of the ever-changing Thames. This is a place I would love to call home.

Our desire to create an alluring sense of welcome that the best homes radiate, is how we started designing. Upon arrival at Chelsea Riverview, you will be first received by a gleamingly beautiful building that nestles into its neighbourhood and bucolic river setting. You will then soon come to understand that this is an architecture conceived as a series of artfully slender horizontal ‘layers’ of stone that slide past each other, reflecting the mesmerising movement of the nearby river. Woven along these layers are ribbons of ribbed bronze which add depth, character and richness to the façades. These slender layers gracefully step down in height to respect the scale of Imperial Park, ensuring the building is connected to the community and its open space. When viewed from Imperial Park itself, Chelsea Riverview is perceived as a sweep of generous landscaped terraces with commanding views. These terraces are a signature element of the design and are washed with sunlight, support healthy gardens and endowed with fresh air.

All in addition to the garden terraces, nearby parks and river walks, Chelsea Riverview residents will enjoy a generous array of facilities including a state-of-the-art gym and screening room. There is a symbiotic connection between the interiors and the architecture with both exhibiting a streamlined contemporary palette of materials, that are crafted with detail and care to ensure delight and tactility. Indeed, the palette of materials reflect the colour and textures of nature as they have been inspired by the nearby river reflections, and the sinuous rivulets that characterise The Thames river banks. These textures and materials are choreographed in a classically timeless way that ensures Chelsea Riverview is a wonderful place to call home.”

By day, feel a sense of calm as you lose yourself in the tranquillity of the river and experience spectacular views. By night, feel a sense of inspiration as you gaze out to the twinkling lights of the ever-changing skyline.

Huge one-of-a-kind terraces overlook the river for breathtaking views across London. Areas of green roof add softness and give the impression of a large wrap-around terrace garden.

*Unlike anywhere else along the river in West London,
the trophy terraces are perfect for entertaining
friends and family or unwinding after a long day.*

The perfect home to entertain in. These spacious living rooms with beautiful curved architectural detailing flow seamlessly onto the generous terraces.

Large kitchens open onto the living/dining room. Terrace Collection kitchens feature matt cabinets and Miele appliances including a wine fridge so you are always ready for guests.

Open plan dining room with engineered oak flooring provides the perfect arena for entertaining or enjoying a quiet dinner. Floor to ceiling sliding doors open out onto your private terrace and expansive views over London.

The Terrace Collection bedrooms have warm-toned wooden floors, cornice ceiling details and floor to ceiling sliding doors opening onto spacious terraces.

Principal and second bedrooms come with built-in wardrobes and large dressing areas with mirrored doors and soft internal lighting, making the best use of the space while maintaining a beautiful design aesthetic.

Warm-toned porcelain marble style tiles are complimented by Dornbracht brassware.

The brushed brass feature rain shower with matching wall-mounted handheld shower sits alongside a steel enamel bathtub, providing a warm and relaxing bathroom.

Bespoke mirrored cabinets with rounded corners and halo feature lighting have integrated storage and shaver sockets for optimum convenience.

Large white steel bathtub with brushed brass detailing is the perfect place to relax after a long day.
