## Murrays Mills

The Murray brothers began construction in 1797, starting with Old then known as Decker Mill and New Mill followed shortly after, and the mills were then connected by linking wings. All but one wing remains, as do the engine houses and the chimney stacks. From the soaring 7-storey Old Mill, to the head-turning facade of the Murray Street Block, the entire site has been restored and engineered to return the mill complex to its former glory while delivering cutting edge standards of new build development.

Apartment 57 is located in Murray Street Block. The development offers a 24 hour concierge, CCTV around the complex and gated access to the large communal courtyard. Murrays' Mills is an owner occupier development and has a strong sense of community which makes it unique in Manchester.
