Energy performance certificate (EPC) 1 Warren Lane Lickey BIRMINGHAM B45 8ER Energy rating F Certificate number: 1501-4691-2622-3008-1873 Detached house Total floor area 266 square metres

Rules on letting this property

You may not be able to let this property

This property has an energy rating of F. It cannot be let, unless an exemption has been registered. You can read <u>guidance for landlords on the regulations and exemptions</u> (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Properties can be let if they have an energy rating from A to E. The <u>recommendations section</u> sets out changes you can make to improve the property's rating.

Energy rating and score

This property's current energy rating is F. It has the potential to be D.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Roof	Pitched, 75 mm loft insulation	Average
Roof	Pitched, limited insulation (assumed)	Very poor
Window	Fully double glazed	Good
Main heating	Warm air, oil	Poor
Main heating control	Programmer and room thermostat	Average
Hot water	Electric immersion, off-peak	Average
Lighting	Low energy lighting in 53% of fixed outlets	Good
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	Room heaters, electric	N/A

Primary energy use

The primary energy use for this property per year is 319 kilowatt hours per square metre (kWh/m2).

Additional information

Additional information about this property:

· Cavity fill is recommended

How this affects your energy bills

An average household would need to spend £7,698 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could save £3,603 per year if you complete the suggested steps for improving this property's energy rating.

This is based on average costs in 2023 when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 42,165 kWh per year for heating
- 2,544 kWh per year for hot water

Impact on the environment	This property produces	20.0 tonnes of CO2
This property's current environmental impact rating is F. It has the potential to be D.	This property's potential	9.4 tonnes of CO2

production

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they

produce each year. CO2 harms the environment.

Carbon emissions

An average household 6 tonnes of CO2 produces

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Increase loft insulation to 270 mm	£100 - £350	£294
2. Cavity wall insulation	£500 - £1,500	£1,426
3. Floor insulation (solid floor)	£4,000 - £6,000	£449
4. Low energy lighting	£75	£107
5. Condensing oil boiler	£3,000 - £7,000	£1,234
6. Solar water heating	£4,000 - £6,000	£93

Step Typical installation cost Typical yearly saving

7. Solar photovoltaic panels £3,500 - £5,500

0 - £5,500

£667

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name Hannah Boyce-Mears

Telephone 01214478300

Email <u>hannah@ardenestates.co.uk</u>

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme Stroma Certification Ltd

Assessor's ID STRO025666
Telephone 0330 124 9660

Email <u>certification@stroma.com</u>
