The grounds which are a very special feature of the property provide six separate paddock areas, which are fenced and watered.

Adjacent to the garden there are mature hedging and very well stocked borders and a great variety of mature shrubs. The driveway extends around the property and leads to the DETACHED STABLE BLOCK which includes a tack room and 3 loose boxes with water connected, light and power, further gated access at the far end leading to a STORE and further timber shelter adjacent. Beyond this area there is a large garden pond and further pathways extending to a grassed area adjacent with many mature shrubs and trees and a DETACHED TIMBER STUDIO/HOME OFFICE which has natural wood style flooring, full height sealed unit double glazed bi-fold doors which open onto a timber deck and from this viewpoint the studio enjoys wonderful and far reaching views over the paddocks and adjoining farmland and countryside.

AGENTS NOTE

The stable block originally had three small pony/small horse stables, two of these have been extended to large stables. All of the stables and the adjoining hayshed have rubber malting and the stables are fitted with automatic water drinkers and heated cables to avoid them freezing in the winter. The current vendors have also added a small field shelter that has been used to store horse bedding and a large field shelter in one of the paddocks which houses machinery but could be used for horses living out. All paddocks have post and rail fencing and winter hardstanding has been put down in the gateway of the winter paddocks to avoid mud at the wettest time of year.

The current vendors during their time at Hollyhock Cottage have replaced all windows in the original part of the house with handmade hardwood Slimlite double glazed units, replaced the kitchen and utility rooms, all new bathrooms and replaced flooring throughout as well as updating electrics and plumbing.
