The residential aspect of this great property consists of an attractively built and spacious modern 2 bedroom detached ground floor cottage that was granted planning permission in 1997. The cottage currently offers 1279 sq. ft of internal space and may be suitable for extension, either on the ground floor or into the loft space, subject to necessary permissions. With gas fired central heating, from a Rayburn, the accommodation also benefits from extensive uPVC double glazing. The accommodation in full comprises: an Entrance Hall, a very light Living Room with windows to 3 aspects including French doors to the garden, a spacious Living Kitchen also with windows to

3 aspects, gas fired Rayburn and solid fuel burning cast iron stove. There are also 2 double bedrooms. and a spacious Bathroom with separate shower unit. The property is rounded off with a spacious utility room, separate WC and numerous built in cupboards. The house is surrounded by spacious largely lawned gardens with a large mature pond. A large gravelled area provides off street parking for a number of vehicles.

The outbuildings consist of a large garage and workshop of around 756 sq. ft with double doors at either end. There is also a generously sized tool shed and a further smaller timber building that has been used as an office. The former farm shop occupied another building of approximately 873 sq. ft that retains its shelving, display stands and chillers. In late 2021, permission was received for the construction of a modern storage building that houses a walk-in cold room and has a mezzanine floor which was completed in 2022. This superb building offers 2229 sq. ft. of floor space (including the mezzanine) and has large roller doors towards both the front and on the rear aspects. There is a large, gravelled parking area to the front of the outbuildings providing a good amount of parking which is accessed via a double gate. There is also a larger greenhouse and a further gravelled storage area behind the buildings. The agricultural area lies to the south side of the house and buildings and is currently laid out as a paddock split into 6 smaller sections with a larger central grassed area.

The property is restricted by an agricultural tie.

This great property will have wide appeal given the lovely property, comprehensive outbuildings and useful land it offers. We believe interest will come from those interested in running it as a smallholding as well as those who may wish to continue with its farm shop use or for those offering an agricultural service. An early viewing is highly recommended to fully appreciate all that is on offer but we have a 360 degree tour available which will provide an excellent insight short of a viewing.

## LOCATION

The property lies just off the A165 that borders it to the west, though the house is situated on the eastern side of the plot. The A165 is used by many heading to

the East Coast from Hull or from further afield and by many commuting to east and central Hull. It is located just to the south of Skirlough, a medium sized village with a range of useful amenities. Hull lies to the south-west and Beverley to the west.
