Client Comments

"The neighbours are lovely people and the Heartlands is a lovely place to live! If we could have a bigger house in the area we would be staying!"

Description

Built in 2018 by Persimmon Homes, this “Newton” style comprises almost 1000 sqft of accommodation owing to a garage conversion that serves a multi-purpose for modern family living. A separate room to the front is currently a play-room, but could easily be bedroom 4 or a home office if desired. To the rear, a utility has been formed off the kitchen, providing space for laundry and additional storage to add to the existing range of sleek units within the kitchen itself. A bright and welcoming living room is a comfortable space to relax and unwind with ample space for a table if required for daily meals. Upstairs, the property boasts 3 well-proportioned double bedrooms, including a generous master bedroom with en-suite shower room, alongside a contemporary family bathroom with 3 piece suite. A hall cupboard and partially floored attic area provide storage for the needs of a busy family. Externally, there is parking to the front for 2 vehicles with further visitor spaces available on-street. The fully enclosed rear has been landscaped for enjoying the best of the sunny weather, with low maintenance artificial lawn, slabbed patio and composite decked terrace for enjoying alfresco dining or allowing children to play safely. Solar panels to the front aspect and a modern gas fired heating system provide an efficient home with band B energy rating to assist those in search of a green mortgage.
