Description

The subjects comprise a level open site predominantly bounded by timber fencing. Our clients have created a platform surface across most of the site consisting primarily compacted hardcore material.

The site has an established access directly from the A77 by way of a wide vehicle entrance gate towards the southern end of the site.

As a well configured, level surfaced secure site over approximately 10 acres, the subjects have potential to support 2 or 3 different uses at any one time. Its proximity to both ferry terminals and the North Channel lends itself well to associated uses.

It should be noted there is a right of access across the site to the Loch Ryan Lighthouse building which remains operational.

The former jetty/pier at the southern end of the site forms part of the wider title ownership and will form part of the sale.

Planning

The Scottish Government's National Planning Framework 4 highlights 'Stranraer Gateway' as a development of national importance. Cairnryan port is recognised as a key hub essential to the wellbeing and economy of the wider region.

The Town and Country Planning (Cairnryan Border Control Posts) (EU Exit) (Scotland) (Special Development Order 2021) applies to land within 15 miles of the Port of Cairnryan and Loch Ryan Port. This grants temporary planning permission for the development of border facilities to the ports at Cairnryan.

Any parties seeking to redevelop or use the site for alternative uses are advised to engage with Dumfries and Galloway Planning Department on planning@dumgal.gov.uk or 01387 260 199.
