"While I love the buzz of Bristol, I've also always wanted to have green space on my doorstep. This flat has given me the best of both worlds. The location of Cleeve Wood House means I can run and cycle in quiet, open areas but can also be in the centre of Bristol in 10 minutes by car and 20 minutes by bike. Further afield, the proximity of the M4 and of Bristol Parkway rail station means that I can be in Bath, South Wales, or London quickly, and at my convenience. I also wanted to live in a building that had a real sense of community, where neighbours were friendly, and where I could know them all by face and name. It's a small, intimate building, and it has been great to get together with everybody for a drink in the garden during the summer months."
