"We've truly loved our light, bright and airy home, which we've filled with music, food and friends over the years. Our garden is a real suntrap in spring and summer, and for the winter months the woodburning stove keeps us cosy warm. We're so lucky to be a stones throw away from all the jewels of Easton, including Sweetmart, Thali, No. 12 café, the Garden of Easton, the Greenbank pub, NOW yoga studio, impossible to list them all! Stapleton Road train station is also really handy for zipping round Bristol or getting to Parkway/Temple Meads for travels further afield, and otherwise we tend to travel on two wheels and have a handy secure bike shed out front."
