"It has been a joy living in the heart of Easton. We bought the house seven years ago, our first home together. It had been a very loved house and we were attracted to its original and generous features. It had new double glazed sash windows, a bespoke (although slightly dated) kitchen and wooden floors throughout. It still had its bay window, fireplace, along with original coricing and front door. We also loved that external sandstone detailing had not been painted over and the quirkiness of the pink bathroom suite. We have spent our time getting to know its quirks, slowly restoring, repairing and now raising a young family. During lockdown we focused on the garden, creating a safe haven to share with friends and family. It is a great space to enjoy on sunny days and host impromptu pizza parties. We hope whoever lives here next finds as much happiness as we have."
