"The beautiful double-height bay windows first caught my eye, along with the peaceful tree-lined road, and all that natural light. Inside, it's full of charm with original features like the hallway arch, living room cornicing and the woodturner in winter. The three spacious double bedrooms and a good-sized bathroom made it perfect for plans to grow the family. The garden gets sun all day, ideal for coffee on the lower patio and evening drinks up top, all surrounded by greenery - our own little sanctuary. It's been a truly special place to live, and we'll miss it—and Bristol—deeply."
