"We've lived around Montpelier for 30 years because it's the perfect sweet spot of the city. Anything we might need that is just a walk away, including fantastic green spaces, all kinds of food, entertainment and activities. Liz LOVED her ceramics classes at the St Paul's Learning Centre. The community WhatsApp is alive with generosity, kindness, creativity, advice, support and sometimes lively debate. The views, the light, the warmth of the maisonette just wrap you up - it's a joy to be home."
