### Property

Built in the 1990s by the highly regarded local builder Danny Ward, and later substantially extended by the current owners, this impressive family home now offers a flexible and spacious layout ideal for modern living. On arrival, double entrance doors open into a bright and welcoming reception hall, setting the tone for the generously proportioned accommodation throughout. The living room is a beautifully light space, benefitting from dual-aspect windows and French doors that lead out to the rear terrace. A separate dining room provides an elegant setting for entertaining, and while currently enclosed, there is potential to open it into the kitchen if desired. A large utility room and a ground floor shower room are conveniently accessed from the hall, enhancing the home's practicality.

One of the standout features of the property is the architect-designed family room - designed by renowned local architect Peter Codling, a stunning later addition with panoramic views of the rear garden and multiple doors opening directly onto a substantial rear terrace – perfect for entertaining or enjoying peaceful afternoons at home. Above the double garage, a versatile bonus room offers ideal space for a home office or, with some adaptation, a fifth bedroom. Upstairs, the principal bedroom suite is a generous retreat, featuring a large en suite bathroom with a corner bath, low-level WC and hand basin. The remaining bedrooms are well-sized and filled with natural light, supporting the home's flexible layout.

### Outside

The property sits proudly within a generous plot of just under half an acre. A sweeping driveway leads up to the front of the house, offering ample parking and access to a double garage. The rear garden has been thoughtfully landscaped and planted with a variety of mature trees, creating an attractive and tranquil setting. The lawn is extensive and features a wildlife-friendly pond as a peaceful focal point. A pedestrian walkway leads to a further area of garden, where you'll find a useful workshop – ideal for hobbies, storage, or conversion, subject to the necessary consents.
