Customer address	89 Bridgend Park, BATHGATE, West Lothian, EH48 2AD
------------------	---

Prepared by	Allied Surveyors Scotland Ltd

Date of inspection 21st Ap	ril 2025
----------------------------	----------

### PART 1 - GENERAL

#### 1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property<sup>1</sup>.

If the Surveyors have had a previous business relationship within the past two years with the Seller or Seller's Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box.

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

#### 1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

Prior to 1 December 2008, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

<sup>1</sup> Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Codes of Conduct.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

#### 1.3 LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to:

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

#### 1.4 GENERIC MORTGAGE VALUATION REPORT

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

#### 1.5 TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report will be prepared from information contained in the Report and the generic Mortgage Valuation Report.<sup>2</sup>

#### 1.6 INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless

<sup>2</sup> Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Rules of Conduct

they assign the same to any other party in writing.

#### 1.7 PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

#### **1.8 CANCELLATION**

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the Surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an invoice equivalent to 80% of the agreed fee.

#### 1.9 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

#### 1.1 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format;
- the "Market Value" is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion;
- the "Property" is the property which forms the subject of the Report;

- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a "prospective Purchaser" is anyone considering buying the Property;
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and
- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

### **PART 2 - DESCRIPTION OF THE REPORT**

#### 2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

#### 2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

#### 2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the Report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

- 1 <u>Category 3:</u> Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
- 2 Category 2: Repairs or replacement requiring future attention, but estimates are still advised.
- 3 Category 1: No immediate action or repair is needed.

**WARNING:** If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

#### 2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

#### 2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

#### 2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

#### 2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" The estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein

### Terms and Conditions

the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- There are no particularly troublesome or unusual legal restrictions;
- There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.

#### 1. Information and scope of inspection

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities etc. will not be inspected or reported on.

Description	The property comprises a two-storey detached house with single integral garage.
Accommodation	Ground floor: Entrance hallway, living room, kitchen/dining room, separate WC. First floor: Landing, four bedrooms, family bathroom with WC, en- suite shower room with WC.

Gross internal floor area (m <sup>2</sup> )	The gross internal floor area is approximately 104m2 (118m2 including garage).
---	--

Neighbourhood and location	The subject property is situated in an established residential
	development where surrounding properties are of a similar age, type and character on the outskirts of Bathgate. A wide range of
	local amenities, facilities and transport links are available and
	within fairly easy reach.

Age	Estimated 1999.
-----	-----------------

Weath	er	The weather was dry and overcast on the day of the inspection.

Chimney stacks	None.
----------------	-------

Roofing including roof space	Sloping roofs were visually inspected with the aid of binoculars where appropriate.
	Roof spaces were visually inspected and were entered where there was safe and reasonable access, normally defined as being from a 3m ladder within the property.
	If this is not possible, then physical access to the roof space may be taken by other means if the Surveyor deems it safe and reasonable to do so.
	The main roof is pitched and is covered in concrete tile.

Roofing including roof space	The roof covering is fixed to underfelt. The roof structure is formed from timber trusses.
Rainwater fittings	Visually inspected with the aid of binoculars where appropriate.
	The gutters and downpipes to the property are formed from PVC.

Main walls	Visually inspected with the aid of binoculars where appropriate.
	Foundations and concealed parts were not exposed or inspected.
	The main walls to the property are of cavity masonry construction, with a pointed brick and render finish.

Windows, external doors and joinery	Internal and external doors were opened and closed where keys were available.
	Random windows were opened and closed where possible.
	Doors and windows were not forced open.
	The windows and doors are formed from PVC with double-glazed units.
	The windows and doors are replacements.
	There are PVC clad fascia and soffit boards to parts of the building.

External decorations	Visually inspected.
	Painted finishes.

Conservatories / porches	None.
Communal areas	None.

Garages and permanent outbuildings	Visually inspected.
	There is a single integral garage which is constructed of brick and blockwork cavity walls and a solid concrete floor.
	There is a timber summerhouse in the rear garden with a felted roof.

Outside areas and boundaries	Visually inspected.
	There is a garden and driveway to the front of the property and an enclosed garden to the rear. Boundaries are generally formed from timber fences.
	There is a raised timber deck in the rear garden.

Ceilings	Visually inspected from floor level.
	The ceilings are formed from plasterboard.

Internal walls	Visually inspected from floor level.
	Using a moisture meter, walls were randomly tested for dampness where considered appropriate.
	The internal walls are lined with plasterboard.
	There are partly tiled walls in the bathrooms and kitchen.

Floors including sub floors	The ground floor is assumed to be of solid concrete construction. The upper floor is of suspended timber construction.
	The floors are covered throughout and therefore could not be inspected.
	There was no access into any sub-floor space.

Internal joinery and kitchen fittings	Built-in cupboards were looked into but no stored items were moved.
	Kitchen units were visually inspected excluding appliances.
	There are timber skirting boards, joinery and doors throughout the property.
	The staircase and balustrading are formed from timber.
	The kitchen comprises fitted floor and wall units with work surface and tiled splashback. The units also incorporate a stainless steel sink, electric oven, hob and grill, integral dishwasher and an integral fridge freezer.

Chimney breasts and fireplaces	None.
Internal decorations	Visually inspected.
	The internal decorations have a mostly papered and painted finish.

Cellars	None.
Electricity	Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on. Electricity is from the mains supply. The electrical distribution board has circuit breakers and is located within the garage alongside the
	electric meter.
Gas	Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.
	Gas is from the mains supply. The gas meter is located within the external enclosure on the side elevation.

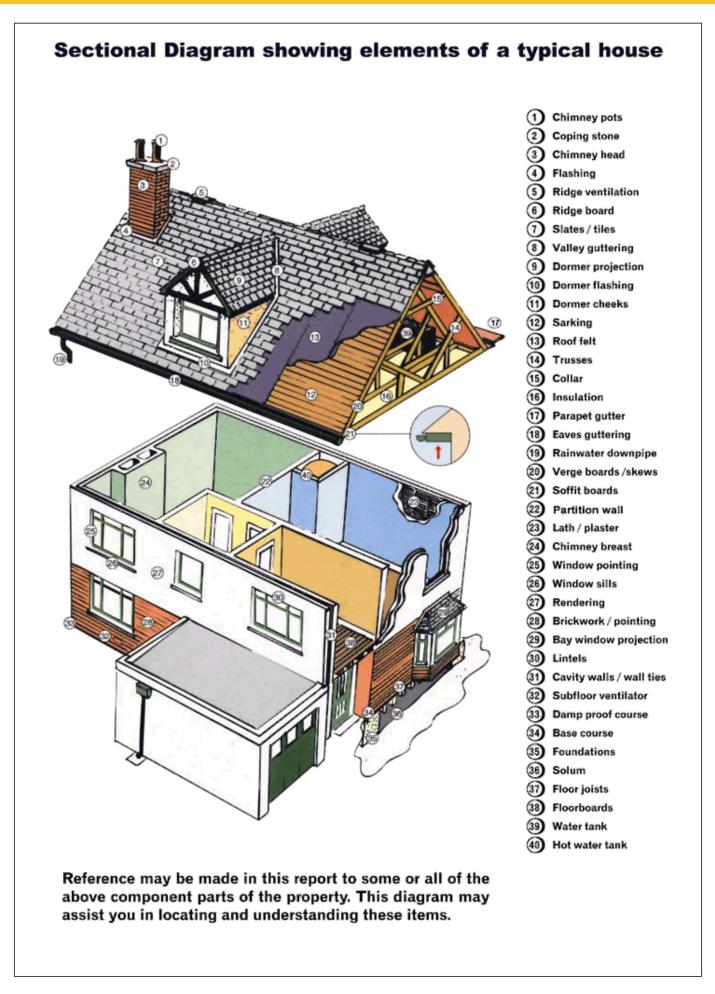

Water, plumbing, bathroom fittings	Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation.
	No tests whatsoever were carried out to the system or appliances.
	Water is from the mains supply. Plumbing, where visible, is a mixture of copper and PVC.
	The bathroom comprises a three-piece suite with a wall-mounted electric shower draining into the bath.
	The en-suite shower room comprises a three-piece suite with a wall-mounted shower draining into the shower tray.
	The WC comprises a WC and wash hand basin.

Heating and hot water	Accessible parts of the system were visually inspected apart from communal systems, which were not inspected.
	No tests whatsoever were carried out to the system or appliances.
	Space heating and hot water is provided by the gas fired central heating boiler which is located within the garage.
	The boiler is connected to a series of radiators throughout the property which are mostly fitted with individual thermostatic valves.
	There is a separate room thermostat within the hallway for overall temperature control of the system.
	Hot water is provided by a hot water cylinder which is located within the landing cupboard. The cylinder is insulated and has an immersion heater.

Drainage	Drainage covers etc were not lifted.
	Neither drains nor drainage systems were tested.
	Drainage is assumed to be connected to the mains sewer.
	·

Fire, smoke and burglar alarms	Visually inspected.
	No tests whatsoever were carried out to the system or appliances.
	There are smoke alarms within the property.

Any additional limits to inspection	The property was fully furnished with fitted floor coverings present throughout at the time of the inspection.
	There were restricted sightlines of the roofs. This limited the inspection of these areas.
	The roof void inspection was limited to head and shoulders level from the ceiling hatch. A thick layer of insulation covered the joists. Stored goods were present. Aspects were therefore hidden from view.
	Cupboards and the garage were full of stored items.

#### 2. Condition

This section identifies problems and tells you about the urgency of any repairs by using one of the following three categories:

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

Structural movement	
Repair category	1
Notes	At the time of the inspection no evidence of significant structural movement was noted.

Dampness, rot and infestation	
Repair category	1
Notes	No evidence of significant dampness, timber decay or infestation was noted within the areas of the property that were readily accessible at the time of inspection.

Chimney stacks	
Repair category	-
Notes	None.

Roofing including roof space	
Repair category	1
Notes	From ground level, the roof coverings were seen to be in a condition consistent with age and tiles were generally intact.
	Some minor moss growth was noted.
	Roofs are prone to water penetration during adverse weather but it is not always possible for surveyors to identify this likelihood in good or dry weather. All roofs should be inspected and repaired by reputable tradesmen on an annual basis and especially after storms.
	Valley gutter sections require higher than average levels of maintenance and should be regularly cleared of leaves, vegetation and associated debris.

Rainwater fittings	
Repair category	1
Notes	Where inspected the gutters and downpipes appeared to be running true with no obvious signs of any major leakage or deterioration. Wet weather conditions may reveal localised leaks.
	Rainwater fittings should be cleaned out regularly to help prevent defects occurring.

Main walls	
Repair category	1
Notes	Isolated cracking was noted to the render finishes which will require future repair. The walls are otherwise seen to be in fair order.

Windows, external doors and joinery	
Repair category	1
Notes	These were generally seen to be in fair order. Whilst there was no obvious defect on the date of our inspection, it should be appreciated that double-glazed sealed units do have a limited life expectancy and defective seals can lead to condensation between the panes, necessitating in replacement of the units. This can sometimes only be obvious during adverse weather conditions.

External decorations	
Repair category	1
Notes	External decorative finishes were generally seen to be in fair order however ongoing maintenance should be anticipated.

Conservatories/porches	
Repair category	-
Notes	None.

Communal areas	
Repair category	-
Notes	None.

Garages and permanent outbuildings	
Repair category	1
Notes	The garage appeared to be in generally fair order consistent with age and type of construction.
	The summerhouse appeared in satisfactory condition consistent with age. On- going maintenance will be required.

Outside areas and boundaries	
Repair category	1
Notes	General maintenance is required to boundary walls, fences and gates. You should verify with your conveyancer the extent of the boundaries pertaining to the subject property

Ceilings	
Repair category	1
Notes	Ceilings were generally found to be in fair order, however some plaster repair or filling may be required as part of normal redecoration.

Internal walls	
Repair category	1
Notes	Internal walls were generally found to be in fair order, however some plaster repair or filling may be required as part of normal redecoration.

Floors including sub-floors	
Repair category	1
Notes	Flooring throughout is generally level and firm to the tread. No obvious defects were noted.

Internal joinery and kitchen fittings	
Repair category	1
Notes	Kitchen fittings are of modern type and are in an order consistent with age.

Chimney breasts and fireplaces	
Repair category	-
Notes	None.

Internal decorations	
Repair category	1
Notes	Internal decorations were generally seen to be reasonable order having regard to age.

Cellars	
Repair category	-
Notes	None.

Electricity	
Repair category	1
Notes	The trade bodies governing electrical installations currently advise that these should be tested prior to a change of occupancy and, thereafter, at least once every five years, by a competent Electrician.
	The electrical wiring system should therefore be checked, tested and upgraded if necessary by an NIC/EIC Registered electrician. Any recommendations made with regard to the safety of the installation should be undertaken.

<b>G</b> as	
Repair category	1
Notes	The trade bodies governing gas installations currently advise that these should be tested prior to a change of occupancy and, thereafter, at least once per year, by a Gas Safe Registered Contractor.
	The gas system should therefore be checked and tested by a Gas Safe registered contractor.

<b>F</b> Water, plumbing and bathroom fittings	
Repair category	1
Notes Internal pipework, where seen, was noted to be of modern copper and PVC typ	

F Water, plumbing and bathroom fittings	
Repair category	1
Notes	Sanitaryware was seen to be of modern type. No obvious defects were noted. Flooring beneath and adjacent to the bathroom fittings was not inspected. Over time, the effects of condensation and leakage together with spillage through normal use can lead to deterioration of flooring and wall linings and repairs in this regard should be anticipated and budgeted for as part of a normal on-going maintenance programme. Services and sanitary fittings were not tested.

Heating and hot water	
Repair category	1
Notes	The subjects benefit from a gas fired central heating system. This was not tested at the time of inspection, however in the interest of safety, it is advised that all gas appliances be inspected and serviced by a competent Gas Safe engineer prior to initial occupancy
	It has been assumed that the heating installation has been regularly serviced and that recent service history records will be made available.

Drainage	
Repair category	1
Notes	No surface evidence of leakage or defect was noted at the time of our inspection however it should be appreciated that the system was not tested.

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the previous comments for detailed information.

#### **Category 3**

Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

#### Category 2

Repairs or replacement requiring future attention, but estimates are still advised.

#### Category 1

No immediate action or repair is needed.

#### Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

#### Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

#### 3. Accessibility information

#### Guidance notes on accessibility information

Three steps or fewer to a main entrance door of the property:

In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

#### Unrestricted parking within 25 metres:

For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

1. Which floor(s) is the living accommodation on?	Ground and first floor.
2. Are there three steps or fewer to a main entrance door of the property?	Yes X No
3. Is there a lift to the main entrance door of the property?	Yes No X
4. Are all door openings greater than 750mm?	Yes No X
5. Is there a toilet on the same level as the living room and kitchen?	Yes X No
6. Is there a toilet on the same level as a bedroom?	Yes X No
7. Are all rooms on the same level with no internal steps or stairs?	Yes No X
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	Yes X No

#### 4. Valuation and conveyancer issues

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated reinstatement cost for insurance purposes.

#### Matters for a solicitor or licensed conveyancer

The property has been altered internally including the addition of French doors to the rear which were installed in approximately 2021 and a stud wall partition which was removed in the kitchen/dining room in approximately 2014. The valuation assumes that all necessary statutory consents have been obtained.

Replacement windows and doors have been provided.

Access roads and footpaths adjoining the property are assumed to made up and adopted by the Local Authority. This should be confirmed by your legal advisor.

The property is situated in a known coal mining area. Our valuation is on the basis that a satisfactory mining report from the Coal Authority will be provided with no adverse findings.

Drill holes to the external walls suggest cavity wall insulation has been retrospectively installed. Conveyancer to confirm presence of any guarantees.

We are unaware of any adverse planning proposals affecting the subjects although this should be confirmed by obtaining a Property Enquiry Certificate.

Absolute Ownership has been assumed.

#### Estimated reinstatement cost for insurance purposes

The estimated reinstatement cost for insurance purposes is TWO HUNDRED & NINETY-FIVE THOUSAND POUNDS (£295,000) STERLING.

This figure is an opinion of an appropriate sum for which the property and substantial outbuildings should be insured against total destruction, on a reinstatement basis, assuming reconstruction of the property in its existing design and materials. Finishings and fittings have not been included. No allowance has been included for inflation during the insurance period or during reconstruction and no allowance has been made for VAT, other than on professional fees. Further discussions with your insurers are advised. The figure should be reviewed annually and in light of any future alterations or additions.

#### Valuation and market comments

The market value of the property described in the report is THREE HUNDRED & TEN THOUSAND POUNDS (£310,000) STERLING.

This figure assumes vacant possession and that the property is unaffected by any adverse planning proposals, onerous burdens, title restrictions or servitude rights.

#### General Remarks

The property was in a condition which was generally consistent with age and type. On-going maintenance and repairs will be required.

The property has been altered internally including the addition of French doors to the rear which were installed in approximately 2021 and a stud wall partition which was removed in the kitchen/dining room in approximately 2014. The valuation assumes that all necessary statutory consents have been obtained.

Replacement windows and doors have been provided.

Access roads and footpaths adjoining the property are assumed to made up and adopted by the Local Authority. This should be confirmed by your legal advisor.

The property is situated in a known coal mining area. Our valuation is on the basis that a satisfactory mining report from the Coal Authority will be provided with no adverse findings.

Drill holes to the external walls suggest cavity wall insulation has been retrospectively installed. Conveyancer to confirm presence of any guarantees.

We are unaware of any adverse planning proposals affecting the subjects although this should be confirmed by obtaining a Property Enquiry Certificate.

Absolute Ownership has been assumed.

(39-54

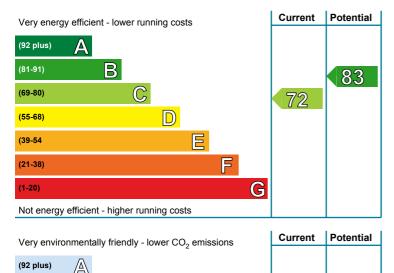

(21-38)

(1-20)

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO<sub>2</sub> emissions by improving your home

Estimated energy costs for your home for 3 years*	£3,624	See your recommendations
Over 3 years you could save*	£159	report for more information

\* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

#### **Energy Efficiency Rating**

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band C (72)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

#### Environmental Impact (CO<sub>2</sub>) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide  $(CO_2)$  emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band C (69)**. The average rating for EPCs in Scotland is **band D (59)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

#### Top actions you can take to save money and make your home more efficient

80

69

Recommended measures	Indicative cost	Typical savings over 3 years
1 Solar water heating	£4,000 - £6,000	£159.00
2 Solar photovoltaic (PV) panels	£3,500 - £5,500	£1182.00

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit greenerscotland.org or contact Home Energy Scotland on 0808 808 2282.

D

F

G

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE

#### Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Cavity wall, as built, insulated (assumed)	★★★★☆	★★★★☆
Roof	Pitched, 150 mm loft insulation	★★★☆	★★★★☆
Floor	Solid, insulated (assumed) To unheated space, limited insulation (assumed)		
Windows	Fully double glazed	★★★☆☆	★★★★☆
Main heating	Boiler and radiators, mains gas	★★★☆☆	★★★★☆
Main heating controls	Programmer, room thermostat and TRVs	★★★★☆	★★★★☆
Secondary heating	None	_	_
Hot water	From main system	★★★☆	★★★★☆
Lighting	Low energy lighting in 79% of fixed outlets	****	****

#### The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO<sub>2</sub> emissions, running costs and the savings possible from making improvements.

#### The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

#### The calculated emissions for your home are 37 kg $CO_2/m^2/yr$ .

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 3.8 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 1.0 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

#### 89 BRIDGEND PARK, BATHGATE, EH48 2AD 21 April 2025 RRN: 0140-2789-5140-2125-4335

#### Estimated energy costs for this home

Latinated energy costs for this nome					
	Current energy costs	Potential energy costs	Potential future savings		
Heating	£2,709 over 3 years	£2,712 over 3 years			
Hot water	£525 over 3 years	£363 over 3 years	You could		
Lighting	£390 over 3 years	£390 over 3 years	save £159		
Tota	ls £3,624	£3,465	over 3 years		

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

#### **Recommendations for improvement**

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Personal de la management	Indianting and	Typical saving	Rating after improvement	
Recommended measures	Indicative cost	per year	Energy	Environment
1 Solar water heating	£4,000 - £6,000	£53	C 74	C 71
2 Solar photovoltaic panels, 2.5 kWp	£3,500 - £5,500	£394	B 83	C 80

#### Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to www.greenerscotland.org.

#### About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

#### 1 Solar water heating

A solar water heating panel, usually fixed to the roof, uses the sun to pre-heat the hot water supply. This can significantly reduce the demand on the heating system to provide hot water and hence save fuel and money. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. You could be eligible for Renewable Heat Incentive payments which could appreciably increase the savings beyond those shown on your EPC, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

#### 2 Solar photovoltaic (PV) panels

A solar PV system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for solar photovoltaic panels, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

#### Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

LZC energy sources present: There are none provided for this home

#### Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit https://energysavingtrust.org.uk/energy-at-home for more information.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	11,788	(440)	N/A	N/A
Water heating (kWh per year)	2,621			

#### About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst (www.elmhurstenergy.co.uk), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

Assessor's name:	Mr. Gareth Meardon
Assessor membership number:	EES/029698
Company name/trading name:	Allied Surveyors Scotland Ltd
Address:	22 Walker Street
	Edinburgh
	EH3 7HŘ
Phone number:	01312266518
Email address:	edinburgh.central@alliedsurveyorsscotland.com
Related party disclosure:	No related party

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

#### Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

#### Advice and support to improve this property

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit greenerscotland.org or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.

# Property Questionnaire

PROPERTY ADDRESS:	89 Bridgend Park Bathgate West Lothian EH48 2AD

Lean

COMPLETION DATE OF PROPERTY QUESTIONNAIRE:	16 April 2025

### **PROPERTY QUESTIONNAIRE**

### **NOTE FOR SELLERS**

- Please complete this form carefully. It is important that your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the Date of Entry for the sale of your house, tell your solicitor or estate agent immediately.

### PROPERTY QUESTIONNAIRE

Information to be given to prospective buyer(s)

1.	Length of ownership				
	How long have you owned the property? 26 years				
2.	Council Tax				
	Which Council Tax band is your property in?				
	A B C D E F G H				
3.	Parking Driveway				
	What are the arrangements for parking at your property?				
	(Please indicate all that apply)				
	Garage				
	<ul> <li>Allocated parking space</li> </ul>				
	• Driveway				
	Shared parking				
	On street				
	Resident permit				
	Metered parking				
	<ul> <li>Other (please specify):</li> </ul>				

4.	Conservation Area	
	Is your property in a designated Conservation Area (i.e. an area of special architectural or historic interest, the character or appearance of which it is desirable to preserve or enhance)?	No
5.	Listed Buildings	
	Is your property a Listed Building, or contained within one (i.e. a building recognised and approved as being of special architectural or historical interest)?	Νο
6.	Alterations / additions / extensions	
a.	<ul> <li>(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)?</li> <li><u>If you have answered yes</u>, please describe the changes which you have made:</li> <li>French doors to the garden Wall removed between kitchen and dining room</li> </ul>	Yes
	(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?	Yes

	<ul> <li>If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking.</li> <li>If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent can arrange to obtain them.</li> <li>Building warrant for the French doors (I have this document)</li> </ul>	
b.	Have you had replacement windows, doors, patio doors or double glazing installed in your property?	Yes
	If you have answered yes, please answer the three questions below:	
	(i) Were the replacements the same shape and type as the ones you replaced?	Yes
	(ii) Did this work involve any changes to the window or door openings?	Yes
	(iii) Please describe the changes made to the windows doors, or patio doors (with approximate dates when the work was completed):	
	Brickwork removed to create space for French doors. May 2021	
	Front and rear doors changed 2014	
	Please give any guarantees which you received for this work to your solicitor or estate agent.	

7.	Central heating	
a.	Is there a central heating system in your property? (Note: a partial central heating system is one which does not heat all the main rooms of the property – the main living room, the bedroom(s), the hall and the bathroom). <u>If you have answered yes/partial</u> – what kind of central heating is there? (Examples: gas-fired, solid fuel, electric storage heating, gas warm air.) • Gas central heating <u>If you have answered yes, please answer the 3</u> <u>questions below:</u>	Yes
b.	<ul> <li>When was your central heating system or partial central heating system installed?</li> <li>Central heating installed when property built in 1999.</li> <li>Replacement boiler 2019</li> <li>5 replacement radiators – 3 in bathrooms, 1 in kitchen and 1 in livingroom.</li> </ul>	
С.	Do you have a maintenance contract for the central heating system? <u>If you have answered yes</u> , please give details of the company with which you have a maintenance agreement: • Contract with Utility Warehouse	Yes

d.	When was your maintenance agreement last renewed? (Please provide the month and year).			
	Due for renewal in May	/ 2025		
8.	Energy Performance	Certificate		
	Does your property Certificate which is le	•	Energy Performance ars old?	No
9.	Issues that may have	affected your	property	
a.	Has there been any st damage to your prope	• •		No
	If you have answered any outstanding insu		mage the subject of	Yes/No
b.	Are you aware of the existence of asbestos in your property? If you have answered yes, please give details:			Νο
10.	Services			
а.	Please tick which services are connected to your property and give details of the supplier:			
	Services	Connected	Supplier	
	Gas / liquid petroleum gas	Yes	Utility Warehouse	
	Water mains / private water supply	Yes	Scottish Water	
	Electricity	Yes	Utility Warehouse	
	Mains drainage		Scottish Water	

[				] [
	Telephone	Landline	Sky	
	Cable TV / satellite	Satellite	Sky	
	Broadband	Yes	Sky	
b.	Is there a septic tank			No
	If you have answered questions below:	<u>yes</u> , please an	iswer the two	
с.	Do you have appropriate consents for the discharge from your septic tank?			Yes/No/ Don't Know
d.	Do you have a maintenance contract for your septic Yes/No tank?			
	If you have answere company with which		e give details of the intenance contract:	
11.	Responsibilities for S	hared or Comr	non Areas	
a.	Are you aware of any cost of anything use shared drive, private If you have answered	d jointly, such road, boundar	as the repair of a y, or garden area?	No
b.	Is there a responsibility maintenance of the r	•	-	No

	common areas?	
	<u>If you have answered yes, please give details:</u>	
C.	Has there been any major repair or replacement of any part of the roof during the time you have owned the property?	No
d.	Do you have the right to walk over any of your neighbours' property - for example to put out your rubbish bin or to maintain your boundaries? <u>If you have answered yes</u> , please give details:	N/A
e.	As far as you are aware, do any of your neighbours have the right to walk over your property, for example to put out their rubbish bin or to maintain their boundaries? <u>If you have answered yes</u> , please give details:	Νο
f.	As far as you are aware, is there a Public Right of Way across any part of your property? (A Public Right of Way is a way over which the public has a right to pass, whether or not the land is privately-owned.) <u>If you have answered yes</u> , please give details:	Νο
12.	Charges associated with your property	

a.	Is there a factor or property manager for your	No
	property?	
	If you have answered yes, please provide the name and address and give details of any deposit held and approximate charges:	
b.	Is there a common buildings insurance policy?	No
	If you have answered yes, is the cost of the insurance included in your monthly/annual factor's charges?	Yes/No/ Don't know
C.	Please give details of any other charges you have to pay on a regular basis for the upkeep of common areas or repair works, e.g. to a Residents' Association, or maintenance or stair fund.	
	None – upkeep carried out by West Lothian Council	
13.	Specialist Works	
a.	As far as you are aware, has treatment of dry rot, wet rot, damp or any other specialist work ever been carried out to your property?	No
	If you have answered yes, please say what the repairs were for, whether you carried out the repairs (and when) or if they were done before you bought the property	

b.	As far as you are aware, has any preventative work for dry rot, wet rot, or damp ever been carried out to your property?					No	
	<u>If you have answered yes</u>	s, plea	ise giv	ve details			
С.	If you have answered yes to 13(a) or (b), do you have any guarantees relating to this work?If you have answered yes, these guarantees will be needed by the purchaser and should be given to your solicitor as soon as possible for checking. If you do not have them yourself please write below who has these documents and your solicitor or estate agent will arrange for them to be obtained. You will also need to 					Yes	s/No
14.	Guarantees						
а.	Are there any guarantees following:	or wa	arrant	ies for an	y of the		
(i)	Electrical work	No		Don't Know	With titl deeds	-	Lost
(ii)	Roofing	No		Don't Know	With tit deeds	-	Lost
(iii)	Central heating		Yes	Don't know	With tit deeds	-	Lost

(iv)	NHBC	No	Don't know	With title deeds	Lost
(v)	Damp course	No	Don't know	With title deeds	Lost
(vi)	Any other work or installations? (for example, cavity wall insulation, underpinning, indemnity policy)		Don't know	With title deeds	Lost
b.	If you have answered 'yes of the work or installation				
с.	Are there any outstanding claims under any of the guarantees listed above? If you have answered yes, please give details:			Νο	
15.	Boundaries			ł	

	So far as you are aware, has any boundary of your property been moved in the last 10 years? If you have answered yes, please give details:	Νο
16.	Notices that affect your property	
	In the past 3 years have you ever received a notice:	
a.	advising that the owner of a neighbouring property has made a planning application?	No
b.	that affects your property in some other way?	No
C.	that requires you to do any maintenance, repairs or improvements to your property?	No
	If you have answered yes to any of a-c above, please give the notices to your solicitor or estate agent, including any notices which arrive at any time before the date of entry of the purchase of your property.	

Declaration by the seller(s)/or other authorised body or person(s):

We confirm that the information in this form is true and correct to the best of my/our knowledge and belief.
