Explore to your heart's content

and discover the charm of York and its surroundings

York is a well-known historical gem, with the history of the city spanning over 2000 years from its establishment by Romans, to then being invaded by the Vikings, as well as its position as the Capital of the North. York also has an extensive chocolate history with Terry's of York and Rowntree beginning their sweet journeys here. York boasts over 20 visitor attractions located within the historic city walls including the world famous JORVIK Viking Centre, the iconic York Minster and the National Railway Museum.

York has quirky cafés, two Michelin Star restaurants, innovative businesses and one of the fastest internet connections in Britain. As you explore York you will discover that every aspect of York's modern life is inextricably linked with its past. Within its ancient, encircling walls, York's medieval streets and buildings are beautifully preserved in the historic heart of the city. Shambles is a must-visit, as one of the most recognised historic streets in England dating back to the 15th century, often referred to as the best-preserved medieval street in Europe.

Blackberry Walk is named after the nearby Derwent Valley Light Railway which gained its nickname of the Blackberry Line when, in the 1920's, it used to transport blackberries to markets in Yorkshire and London, as well as running excursions know as 'Blackberry Specials' for York residents to pick blackberries in the surrounding countryside.

WE ARE DELIGHTED TO INTRODUCE BLACKBERRY WALK, 40 BEAUTIFUL, THREE AND, FOUR BEDROOM NEW HOMES, CRAFTED TO EXCEPTIONALLY HIGH STANDARDS, IN A HIGHLY DESIRABLE PART OF YORK.

Blackberry Walk is the final phase of the multi award winning Joseph Rowntree Housing Trust development which has established Derwenthorpe as a prime location promoting sustainable and affordable living.

Started in 2013, the Derwenthorpe scheme has delivered over 400 new homes based on a garden village model, putting people at the centre of the development with 17 acres of community space and energy efficient homes.

The masterplan makes good use of the existing hedgerows to structure the site. These have been enhanced to create ecological zones and amenity spaces that thread through the development. A network of pedestrian and cycle routes cross the site allowing easy access between neighbourhoods and into the centre of York via the Sustrans cycle network.
