Flood Risk

Surface Water - Flood Risk

This map shows the chance of flooding where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Chance of flooding to the following depths at this property:

Flood Risk

Surface Water - Climate Change

This map shows the future chance of flooding **between 2040 and 2060** where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.

Maps

Conservation Areas

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Nearby Conservation Areas	
1	Branston
2	Heighington
3	Potterhanworth
4	Washingborough
5	Nocton
6	Dunston
7	St Catherines
8	Waddington
9	Gowt's Bridge
10	Sibthorp

Maps

Landfill Sites

This map displays the location of known landfill sites. Historic sites are where there is no environmental permit in force. Active sites are currently authorised by the Environment Agency under Environmental Permitting Regulations.

Nearby Landfill Sites

1	Land To Rear Of 41 Silver Street-Branston, Lincolnshire	Historic Landfill	
2	Land to the North of Fen Road-Heighington, Lincoln	Historic Landfill	
3	Manor Road-Washingborough	Historic Landfill

5	Moor Lane-Branston Booths, Lincoln	Historic Landfill	
6	Western Avenue-Western Avenue, Bracebridge Heath	Historic Landfill	
7	EA/EPR/LP3298NH/V002 - Anglian Water Services Ltd	Active Landfill	
8	East Of Crematorium-Canwick, Lincoln	Historic Landfill	
9	Land east of Great Northern Terrace Industrial Estate-Lincoln, Lincolnshire	Historic Landfill	
10	EA/EPR/BP3098ND/A001 - U E F Lincoln	Active Landfill	

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Maps

Council Wards

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

Nearby Council Wards

- | | |
|----|--|
| 1 | Branston Ward |
| 2 | Heighington and Washingborough Ward |
| 3 | Bracebridge Heath and Waddington East Ward |

| 7 | Waddington West Ward |
| 8 | Metheringham Ward |
| 9 | Moorland Ward |
| 10 | North Hykeham Witham Ward |

Environment

Radon Gas

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

Ground Composition for this Address (Surrounding square kilometer zone around property)

Carbon Content:	HIGH	Soil Texture:	LOAM TO SANDY LOAM
Parent Material Grain:	ARGILLIC - ARENACEOUS	Soil Depth:	INTERMEDIATE-SHALLOW
Soil Group:	LIGHT TO MEDIUM		

Primary Classifications (Most Common Clay Types)

C/M	Claystone / Mudstone

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB
