Summary of costs

The information in this document is for homes sold with a **DPA** (**Designated Protected Area**) – **Mandatory Buyback lease on** the **new shared ownership model**. There are variations of shared ownership which have different features. For more information on the variations, see the 'Key information about the home' document.

When you are looking for shared ownership homes, you should always check the Key Information Document to see which model covers that specific home.

The information in this document will help you decide if a shared ownership home sold with a DPA – Mandatory Buyback lease is right for you.

You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

When you buy a home through shared ownership, you enter into a shared ownership lease. The lease is a legal agreement between you (the 'leaseholder') and the landlord. It sets out the rights and responsibilities of both parties.

Before committing to buy a shared ownership property, you should take independent legal and financial advice.

This summary of costs document is to help you decide if shared ownership is right for you. You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

It does not form part of the lease. You should carefully consider the information and the accompanying lease, and discuss any issues with your legal adviser before signing the lease.

Failure to pay your rent, service charge, or mortgage could mean your home is at risk of repossession.

The costs in this document are the costs as at the date issued. These will increase (typically on an annual basis) and you should take financial advice on whether this will be sustainable for you.
