**Shared ownership information New AHP**

Shared ownership is a part buy part rent property from a registered landlord  
 You purchase a share with the help of a mortgage based on your affordability.

Example of costs based on a Share of: 37%

Open Market Value: £258,000  
 Rent per month: £372.49  
 Service Charges per month: £28.54

**How does Shared Ownership work?**

If you bought a home on the open market, you would agree a purchase price through an estate agent. Then you would take out a mortgage to cover the total purchase price of the property minus any deposit you might have available.  
 With Shared Ownership, the price of the property is fixed at the open

market value, as assessed by a qualified valuer. You borrow just enough to cover the share you are buying. This is referred to as equity share.

The equity share amount will be an amount that you can afford, as set out under government guidelines. The total monthly cost of the rent, plus your mortgage, will be lower than the monthly cost if you bought the property outright with a mortgage.

For legal reasons, while you are only buying a part-share of the property, you will have a leasehold interest of 990 years where the scheme allows. However, you may buy further shares. This is called 'staircasing', and may eventually progress to outright ownership.

**Plymouth Community Homes**

Two can are proud to be advertising these properties on behalf of Plymouth Community Housing. We will share your data with them to facilitate any viewings and assess eligibility for shared ownership.
