### Description

The land consists of approximately 13.69 acres (5.54 ha) of productive arable land. The land lies strategically on the fringe of the thriving village of North Somercotes, just 7.5 miles North East of the market town of Louth.

### The Land

The arable land comprises of 13.69 acres or thereabouts within a single, regular shaped field parcel (edged red on the plan across). The land is classified as Grade 2 on the Land Classification Plan of England & Wales, and the soils form part of the Agney series, which are described as deep stoneless fine and coarse silty and sandy soils, suitable for growing a variety of cereals and some root crops.

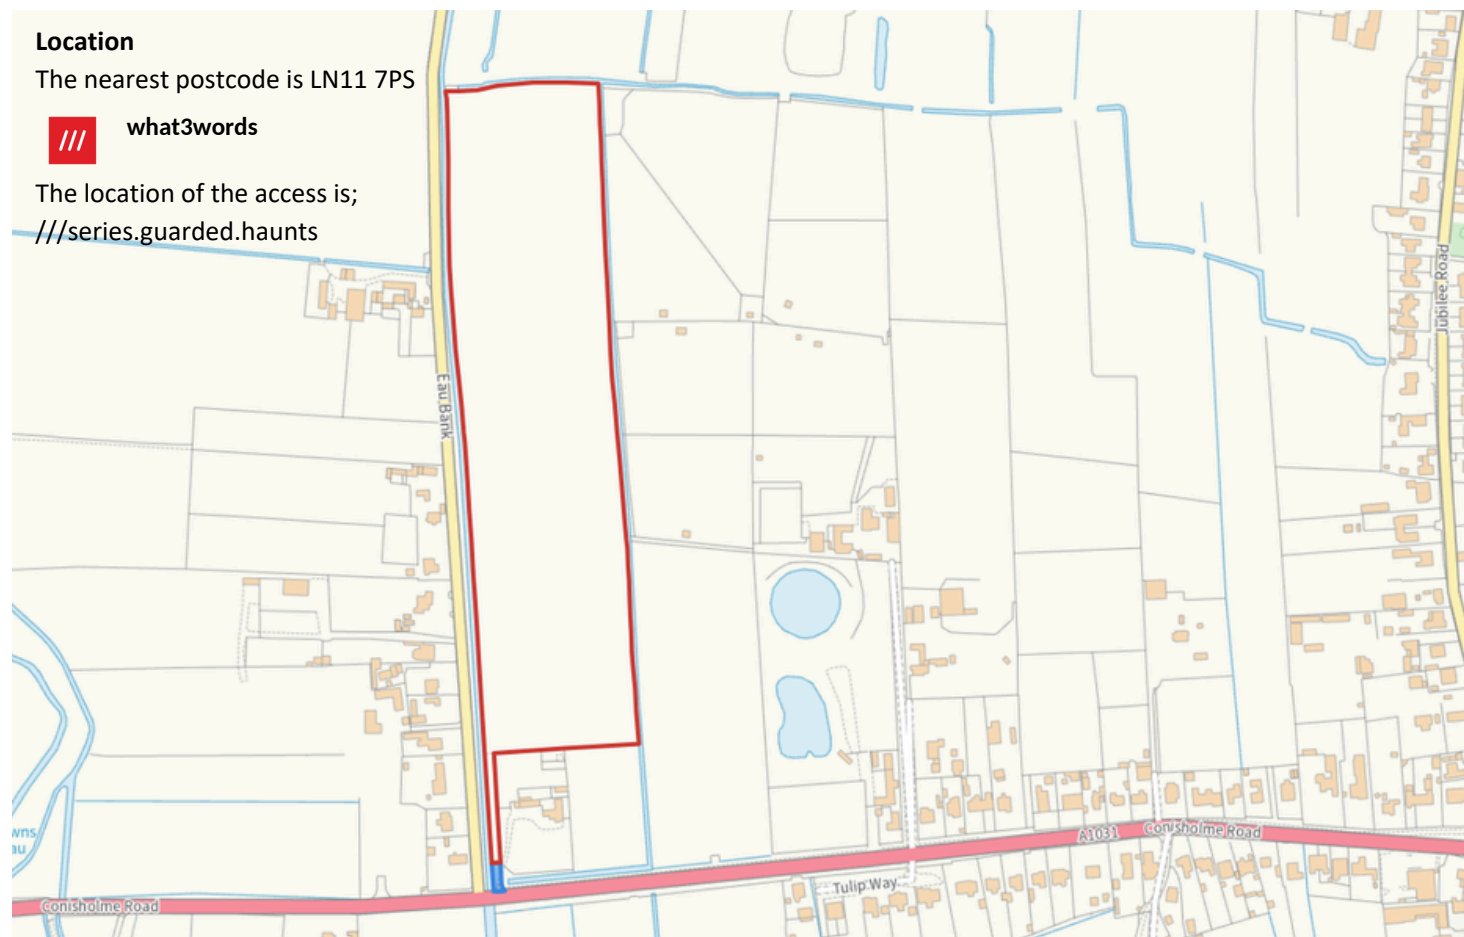

Over recent years the land has been farmed as part of an arable rotation including cereal and potatoes. Details of the past cropping can be found later in this brochure. The boundaries are predominantly defined by ditches, mature hedgerows and domestic fences.

The Agents have been advised that the land benefits from an historic underdrainage scheme, however a plan of the scheme is not available.

The land is accessed over a right of way down a short but wide grass track (edged blue on the plan across) from the A1031, Conisholme Road.
