Kirkton Of Skene Westhill AB32 6XE

Date of Valuation: 19/04/2023 AIMS Ref: ABD-2023\04\0075

# single survey

# survey report on:

Property address	Kirkstane House
	Kirkton Of Skene Westhill AB32 6XE

Customer	Dr R. Maitland Livingstone & Mrs Rona Livingstone
----------	---

Prepared by	Graham + Sibbald LLP
-------------	----------------------

# 1. Information and scope of inspection

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities etc. will not be inspected or reported on.

Description	Category B Listed detached former manse constructed in 1779 and substantially extended and re-modelled in 1840
Accommodation	Ground Floor: Entrance Vestibule, Hall, Living Room, Dining Room, Sitting Room, Dining Kitchen, Utility and Shower Room.  First Floor: Front and Rear Landings, Master Bedroom with Dressing Room, Bedroom 2, Bedroom 3, Bedroom 4, Bedroom 5 and Bathroom.  Attic Floor: Landing, Bedroom 6, Study/Bedroom 7.
Gross internal floor area (m²)	331 or thereby
_	
Neighbourhood and location	The subjects are situated a short distance north west of the Aberdeenshire village of Kirkton of Skene and forms part of a small

group of residential properties. The property is situated in a pleasant setting benefiting from an open aspect to the front which faces south. A good range of facilities and amenities can be found in the nearby

Page 2 of 26

town of Westhill.

Age (year built)	Originally built in 1779.
Weather	Sunny and dry.
Chimney stacks	Granite stonework part harled externally with cement and lead flashings at roof line and fire clay pots with most being sealed with ventilated caps.  Visually inspected with the aid of binoculars where appropriate.
	visually inspected with the aid of billoculars where appropriate.

## Roofing including roof space

Roof - Main roofs are double pitched and slated with central lead valley with rear outshoot having part pitched, hipped and slated and part flat bituminous felt clad roofs.

Roof Spaces - Access hatches at the top rear landing, front landing, dressing room and bathroom. Only the rear roof void and void over the bathroom could be accessed due to the height of the ceiling front section of the house which is over 3metres. The roofs are framed in timber joist rafters overlaid with timber board sarking with glasswool quilt insulation installed. The rear loft area is part floored for light storage purposes.

Inspection of the roof void area was restricted by glasswool quilt insulation, flooring and the cold water storage tank.

Sloping roofs were visually inspected with the aid of binoculars where appropriate.

Flat roofs were visually inspected from vantage points within the property and where safe and reasonable to do so from a 3m ladder externally.

Roof spaces were visually inspected and were entered where there was safe and reasonable access, normally defined as being from a 3m ladder within the property. If this is not possible, then physical access to the roof space may be taken by other means if the Surveyor deems it safe and reasonable to do so.

Doinwator fittings	Cast iron gutters and downnings discharging into the drainage system
Rainwater fittings	Cast iron gutters and downpipes discharging into the drainage system.
	Visually inspected with the aid of binoculars where appropriate.
Main walls	Main external walls are of solid granite stonework, mostly harled
	externally with exposed pointed granite margins.
	Visually inspected with the aid of binoculars where appropriate.
	Foundations and concealed parts were not exposed or inspected.
Windows, external doors and	Windows - Part double and part single glazed timber casement plus
joinery	Velux conservation double glazed rooflights and older cast iron single
	glazed rooflight.
	Front Door - Panelled timber with single glazed fanlight above.
	Kitchen Entrance Door - Panelled timber. Sitting Room entrance door
	- Timber framed and single glazed.
	Internal and external doors were opened and closed where keys were
	available.
	Random windows were opened and closed where possible.
	Doors and windows were not forced open.
External decorations	Paint finishes to external timbers and metal work.
External decorations	
	Visually inspected.
Conservatories / porches	None.
Communal areas	The property is appeared ever a characteristic word from the world.
Communal areas	The property is accessed over a shared private road from the public road.
	Circulation areas visually inspected.

Garages and permanent	Timber summer house with metal tiled effect roof coverings.
outbuildings	Visually inspected.
Outside areas and boundaries	The property is located within landscaped grounds which are understood to extend to circa 1.4 acres. These include three main lawn areas to the west of the house including walled garden as well as duck pond, wooded area and private driveway which is part laid gravel. There is Category B Listed sun dial which is located in the central lawn. There is a well in the side garden. We are advised this is not deep and is filled by water run off from the adjacent hill. Boundaries are formed by stone walls and post and wire fencing.
	Visually inspected.
Ceilings	Lath and plaster incorporating period cornicing and mouldings to some rooms.
	Visually inspected from floor level.
Internal walls	Plaster on timber framing and timber stud partitions. There is tongue and groove timber panelling to dado height in the bathroom.
	Visually inspected from floor level.
	Using a moisture meter, walls were randomly tested for dampness where considered appropriate.
Floors including sub floors	Floors - Part solid overlaid in Caithness flagstones and part suspended timber construction with timber joists overlaid with timber tongue and groove boards.
	Sub-floor - No access gained to any sub-floor areas.
	Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted.

# Internal joinery and kitchen fittings

Internal Joinery - Period timber doors and screens set in timber frames with associated architraves and skirtings. Timber staircase with timber/metal balustrade. Working timber shutters in many of the rooms. Shallow wall press cupboards in many of the rooms and cupboards/wardrobes. Georgian `buffet` in one of the rear bedrooms.

Kitchen Fittings - Range of base, wall and tall fitted units with laminate worktops.

Built-in cupboards were looked into but no stored items were moved.

Kitchen units were visually inspected excluding appliances.

## **Chimney breasts and fireplaces**

Chimney breasts are formed in granite stonework. There are combination of original and replacement period fireplaces in many of the rooms. The fireplace in the front living room was designed by Jon Bannerman in 1968 for the Coal Board. A wood burning stove has been installed in the rear sitting room fireplace in the more recent past.

Visually inspected. No testing of the flues or fittings was carried out.

## **Internal decorations**

Internal decorations are of papered and paint finishes to walls and ceilings and paint and varnish to internal timbers. There wall tiling in the shower room and kitchen.

Visually inspected.

**Cellars** 

None.

## **Electricity**

Mains supply with main consumer unit and meters located within the top floor box room and understair cupboard. Where seen wiring is of PVC coated cabling with 13amp sockets and switches. The timber enclosed fuse box at the front first floor landing is understood to be redundant.

Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.

## Gas

None.

# Water, plumbing, bathroom fittings

Mains water supply with fittings appearing of PVC and copper piping where seen. There is a plastic cold water storage tank in the loft space above the Study/ Bedroom 7.

Fittings - Inset stainless steel sink unit.

Utility Fittings - Inset stainless steel sink unit and plumbing for wash basin and dishwasher.

Bathroom Fittings - White wc, wash hand basin and free-standing cast iron bath.

Shower Fittings - White wc, vanity wash hand basin/unit and coloured shower tray with mixer shower fitting over.

Three Bedrooms - Two with coloured hand basins fitted and one with white basin.

Accessible parts of the system were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.

## Heating and hot water

Central Heating - Oil fired floor mounted Worcester boiler located in the kitchen serving steel panel hot water radiators with thermostatic radiator valves.

Hot Water - Provided via hot water tank which is enclosed in a cupboard in the kitchen and could not be accessed.

Accessible parts of the system were visually inspected apart from communal systems, which were not inspected. No tests whatsoever were carried out to the system or appliances.

## **Drainage**

Drainage discharges into a private cesspit located within the boundary of the property with outfall located in the glebe field to the front.

Drainage covers etc were not lifted.

Neither drains nor drainage systems were tested.

## Fire, smoke and burglar alarms

Smoke alarms installed. New smoke alarm standards were introduced in Scotland in February 2022 and it is likely that some properties may require additional works to meet these standards. In instances where alarms are in place, no tests whatsoever have been carried out and we cannot confirm if the system complies with the most recent regulations. Any potential purchaser should satisfy themselves as to whether the current system meets with regulations or otherwise.

Visually inspected.

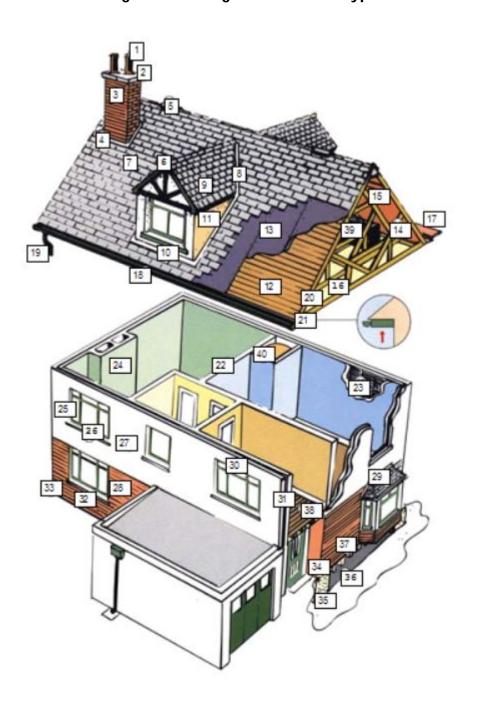

No tests whatsoever were carried out to the system or appliances.

## Additional limits to inspection

The property was fully furnished, had fitted and fixed floor coverings throughout and there were stored items in cupboards and wardrobes which restricted our internal investigation.

No inspection for Japanese Knotweed was carried out and unless otherwise stated for the purpose of this report, it is assumed that there is no Japanese Knotweed within the boundaries of the property or neighbouring properties.

# 2. Condition

This section identifies problems and tells you about the urgency of any repairs by using one of the following three categories:

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

	Structur	ral movement	
Repair catego	pry	1	
Notes		There is evidence of settlement in the building noted internally by slopes to door lintels and floors but this is not inconsistent with a property of this age and type and on the basis of a single limited inspection appears to be longstanding and non-progressive.	
	Dampne	ess, rot and infestation	
Repair catego	ory	3	
Notes		Significant movement was evident to flooring in the ground floor sitting room indicating possible decay to joist ends. Localised elevated moisture levels to detected to plaster finishes at various areas throughout the property and particularly at chimney breasts in many rooms.	
		It is recommended that a reputable timber/damp specialist firm be employed to carry out a detailed inspection of the entire subjects and thereafter implement all necessary remedial works under cover of long term guarantee.	
		Woodworm flight holes were evident to roof timbers. Past woodworm treatment works have been carried out to the property under cover of guarantee which has since expired. All available historic documentation should be transferred.	
	Chimney	y stacks	

Repair catego	ry 2	
Notes	Some areas of cracking were evident to cement haunches and some areas of eroded pointing with further normal weathering and moss growth evident elsewhere.	
	Roofing including roof space	
Repair catego	ry 2	
Notes	The roof covering is of significant age, although we are advised it has been regularly maintained during the present owners tenure. There are however presently a number of slipped and missing slates. It should be appreciated that given the age of the roof this will require constant maintenance in the future.  The bituminous felt flat roof covering was covered in heavy moss growth.	
	Roofs of this type do have a more limited lifespan and can fail without warrat which time repair or replacement will be required.	ning
	There are corroded metal hip straps. The central valley has been painted w protective sealant in the more recent past.	vith
***	Rainwater fittings	
Repair catego	ry 1	
Notes	At the time of our inspection there was no evidence of water staining on wall surfaces, etc. which would indicate leakage. It should be noted that it was not raining at the time of our inspection. Localised surface corrosion was evident.	
	We are advised that gutters have been cleared in the recent past.	
	Main walls	
Repair catego	ry 1	
Notes	The main outer walls of the property generally appeared in fair order consistent with age.	

	Window	s, external doors and joinery	
Repair catego	ory	1	
Notes		Modern replacement windows appear in good condition consistent with age with older joinery appearing in fair condition. A number of windows have been painted shut and will require to be eased open.	
	External	decorations	
Repair catego	ory	1	
Notes		The external decorations are generally in fair order. Periodic repainting will be required if these areas are to be maintained in satisfactory condition.	
	Conserv	vatories / porches	
Repair catego	ory	n/a	
Notes			
	Commu	nal areas	
Repair catego	ory	1	
Notes		No reportable defects.	
	Garages	Garages and permanent outbuildings	
Repair catego	ory	1	
Notes		Typical weathering evident.	
	Outside	areas and boundaries	
Repair catego	ory	2	

Notes	There is a section of damaged stone wall which we are advised is to be repaired in the near future. There are sections of deterioration to dry stone dyke boundary walls which is typical and there are areas of weathering to pointed stone walls. Sections of fencing are in variable condition.  External grounds are generally well maintained. Some of the large trees are in
	variable condition and it may be prudent to seek the advice of a tree surgeon.
Ceilings	
Repair category	1
Notes	There is evidence of cracking and unevenness to lath and plaster ceilings in a number of areas. The strength of this type of ceiling depends on how well the plaster keys into the lath. When the plaster starts to pull loose, if often becomes wide spread, and the repair of a small crack can therefore soon become a large repair.
Internal	l walls
Repair category	1
Notes	The internal walls are largely covered with decorative finishes. During
NOTOS	routine redecoration some plaster filling may be necessary. There is eroded/ boss plaster in a rear bedroom window ingo behind the shutter.
	routine redecoration some plaster filling may be necessary. There is
	routine redecoration some plaster filling may be necessary. There is eroded/ boss plaster in a rear bedroom window ingo behind the shutter.
Floors in	routine redecoration some plaster filling may be necessary. There is eroded/ boss plaster in a rear bedroom window ingo behind the shutter.  ncluding sub-floors
Repair category Notes	routine redecoration some plaster filling may be necessary. There is eroded/ boss plaster in a rear bedroom window ingo behind the shutter.  **Routing sub-floors**  2  Significant movement was evident to floor joists in the rear sitting room, possibly indicative of decay in concealed floor joists. Elsewhere, flooring is generally firm to the tread with the exception of some areas which were

Notes		The internal joinery is generally in keeping with the age and type of property and appeared in fair condition with normal wear evident. The kitchen fittings are generally in adequate condition for their age and type. internal glazing should be checked to ensure it complies with current recommended standards. This could not be confirmed at the time of inspection. Some door openings are of period height which is low by modern standards.			
Chimney		y breasts and fireplaces			
Repair catego	ory	1			
Notes		Many of the chimneys are capped and connecting fireplaces are presently not in use. All flue linings should be checked, repaired if necessary and swept prior to the fires being reused.			
	Internal	decorations			
Repair catego	ory	1			
Notes		The property appears in fair decorative condition consistent with age although it is recognised that on taking occupancy home owners may consider redecoration. There is missing paper to the ceiling of one of the front bedrooms.			
	Cellars				
Repair catego	ory	n/a			
Notes					
	Electrici	ty			
Repair category		2			
Notes		The electrical system has modern circuit breaker fuse boxes fitted however there are aspects of the installation which will not meet current recommended standards and as such we recommend that it be checked and upgraded as necessary by an NICEIC/SELECT registered Electrical Contractor.			

0	Gas				
Repair catego	bry	n/a			
Notes					
F	Water, p	olumbing and bathroom fittings			
Repair catego	ory	1			
Notes		Plumbing and fittings are of copper/pvc piping where seen and appeared in serviceable condition but were not tested. Some of the sanitary ware is of an older style by modern comparisons. The galvanized water tank and connecting pipework in the loft space over the bathroom is redundant and not linked to the water system.			
Heating and hot water					
Repair catego	bry	2			
Notes		We are advised the central heating boiler has been regularly serviced. It should however stressed that the boiler is of older design and will be inefficient by modern standards.			
Drainage		e			
Repair category		1			
Notes		Drainage is connected to a private cesspit. There was no surface evidence to suggest the system is choked or leaking.			

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the previous comments for detailed information.

ıy safety hazard. Estimates for repairs or replacement are needed now.

# Category 2

Category 3

Repairs or replacement requiring future attention, but estimates are still advised.

## Category 1

No immediate action or repair is needed.

## Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

## Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability,

value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

# 3. Accessibility information

## Guidance notes on accessibility information

Three steps or fewer to a main entrance door of the property: In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

Unrestricted parking within 25 metres: For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

1.	Which floor (s) is the living accommodation on?		Ground and	d First	
2.	Are there three steps or fewer to a main entrance to a property?	Yes	Х	No	
3.	Is there a lift to the main entrance door of the property?	Yes		No	Х
4.	Are all door openings greater than 750mm?	Yes		No	Х
5.	Is there a toilet on the same level as the living room and kitchen?	Yes	Х	No	
6.	Is there a toilet on the same level as a bedroom?	Yes		No	х
7.	Are all rooms on the same level with no internal steps or stairs?	Yes	Х	No	
8.	Is there unrestricted parking within 25 metres of an entrance door to the building?	Yes	Х	No	

# 4. Valuation and conveyance issues

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated cost for insurance purposes.

# Matters for a solicitor or licensed conveyancer

We are unaware of any adverse planning proposals affecting the subjects although this should be confirmed by obtaining a Property Enquiry Certificate.

Absolute Ownership assumed. We are unaware of any easements, servitudes or rights of way which may adversely affect the property. This point should be confirmed by reference to the Title Deeds.

It is recommended that where repairs, defects or maintenance items have been identified interested parties make appropriate enquiries in order to satisfy themselves of potential costs and the extent of the works required prior to submitting a legal offer to purchase.

The property is Category B Listed, which will have implications on any future internal and external alterations. A number of windows have been replaced in the recent past and it should be confirmed these works have been undertaken and consent by Historic Scotland.

Drainage is to an exclusive cess pit which we understand lies within the boundary of the property and outfall to the field to the front. This was not checked or tested. It should be ensured that appropriate registration documents are available.

There is a right of way over the private access road and outfall of the drainage system into the Glebe field to the front with are both owned by the Church of Scotland. The conveyancer should check the legal arrangements are adequate.

# Estimated reinstatement cost for insurance purposes

£1,645,000

We are of the opinion that the subjects should be insured for buildings reinstatement purposes for a sum of not less than £1,645,000 (ONE MILLION SIX HUNDRED AND FORTY FIVE THOUSAND POUNDS)

Due to the historic nature of the property advice should be sought from a Quantity or Building Surveyor with regards to the exact cost of replacement in the event of a total loss.

## Valuation and market comments

£630,000

We are of the opinion that the market value of the subjects all as previously described and on a vacant possession basis would be fairly stated in the region of £630,000 (SIX HUNDRED AND THIRTY THOUSAND POUNDS)

Our valuation reflects current market conditions relating to this area. We would assume that current trends will prevail at the ultimate date of disposal with no adverse or onerous matters being introduced into the market during the intervening period which would have a detrimental effect on price.

## TERMS AND CONDITIONS OF SINGLE SURVEY

**GENERAL** 

### 1.1 The Surveyors

The Seller has engaged the Surveyors to provide the Report and a Generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited energy company.

The Surveyors are authorised to provide a transcript or retype of the Generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by brokers and lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the Generic Mortgage Valuation Report and the Report. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the Generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and Generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors are required to amend the valuation in consequence of such information, they will issue an amended Report and Generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and Generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon residential property. \*

If the Surveyors have had a previous business relationship within the past two years with the Seller or Seller's agent or relative to the Property, they will be obliged to indicate this in the adjacent box. Yes

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

\* Which shall be in accordance with the current RICS Appraisal and Valuation Standards (The Red Book) and RICS Rules of Conduct.

## 1.2 The Report

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

Prior to the 1st of December 2008, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Report is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Report may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective Purchasers and the Purchaser and their respective professional advisors without the prior written consent of the Surveyors.

### 1.3 Liability

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and is prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would be (or, as the case might be, would have been) disclosed and delivered to:

- the Seller:
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser: and
- the professional advisors of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

Graham + Sibbald's total liability to the Client (and any third party relying upon this report) under this Agreement (including liability in contract, tort (including negligence), breach of statutory duty, or otherwise) shall be limited to the lower of the following: a) 25% of the valuation or b) £250,000.

### 1.4 Generic Mortgage Valuation Report

The Surveyors undertake to the Seller that they will prepare a Generic Mortgage Valuation Report, which will be issued along with the Report. It is the responsibility of the Seller to ensure that the Generic Mortgage Valuation Report is provided to every potential Purchaser.

## 1.5 Transcript Mortgage Valuation for Lending Purposes

The Surveyors undertake that on being asked to do so by a prospective Purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. \*\* The Transcript Mortgage Valuation Report for Lending Purposes will be prepared from information contained in the Report and the Generic Mortgage Valuation Report.

\*\* Which shall be in accordance with the current RICS Appraisal and Valuation Standards (The Red Book) and RICS Rules of Conduct.

## 1.6 Intellectual Property

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

#### 1.7 Payment

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports, including replacement home reports.

### 1.8 Cancellation

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the Property, the Surveyor concludes that it is of a type of construction of which the Surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the Property, the Surveyor concludes that the Property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the following paragraph of this section.

In the case of cancellation by the Seller, for whatsoever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

If our account details change, we will notify these to you by letter or face to face and never by email.

## 1.9 Precedence

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

### 1.10 Definitions

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a Surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property:
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format.
- the "Market Value" is the estimated amount for which the Property should exchange, on the date of valuation, between a willing seller and a willing buyer in an arms length transaction after proper marketing where the parties had each acted knowledgeably, prudently and without compulsion;
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a "prospective Purchaser" is anyone considering buying the Property;
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in Part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property:
- the "Surveyors" are Graham + Slbbald LLP, a limited liability partnership incorporated in Scotland (Registered Number SO307130) and having its registered office address at Seabraes House, 18 Greenmarket, Dundee, DD1 4QB, of which the Surveyor is an employee, director or member (unless the Surveyor is not an employee, director or member, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report; and

- the "Energy Report" is the advice given by the accredited energy company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.
- "Data Protection Legislation" means the UK Data Protection Legislation and any other European Union legislation relating to personal data and all other legislation and regulatory requirements in force from time to time which apply to a party relating to the use of personal data (including, without limitation, the privacy of electronic communications).
- "UK Data Protection Legislation" means all applicable data protection and privacy legislation in force from time to time in the UK including the UK GDPR; the Data Protection Act 2018; the Privacy and Electronic Communications Directive 2002/58/EC (as updated by Directive 2009/136/EC) and the Privacy and Electronic Communications Regulations 2003 (SI 2003/2426) as amended.
- "UK GDPR" has the meaning given to it in section 3(10) (as supplemented by section 205(4)) of the Data Protection Act 2018.

#### **DESCRIPTION OF THE REPORT**

### 2.1 The Service

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by statute and this is in the format of the accredited energy company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

### 2.2 The Inspection

The inspection is a general surface examination of those parts of the Property which are accessible: in other words, visible and readily available for examination from ground and floor levels without risk of causing damage to the Property or injury to the Surveyor.

All references to visual inspection refer to an inspection from within the Property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the Property.

The inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the Report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Report of Property that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a register of asbestos and effective management planis in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

### 2.3 The Report

The Report will be prepared by the Surveyor who carried out the Property inspection and will describe various aspects of the Property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the Property will be concise and will be restricted to matters that could have a material affect upon value and will omit items that, in the Surveyor's opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the Property is free of any other minor defects.

Throughout the Report the following repair categories will be used to give an overall opinion of the state of repair and condition of the Property:

## 2.3.1 Category 3:

Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the Property or cause a safety hazard. Estimates for repairs or replacement are needed now.

### 2.3.2 Category 2:

Repairs or replacement requiring future attention, but estimates are still advised.

### 2.3.3 Category 1:

No immediate action or repair is needed.

#### WARNING:

If left unattended, even for a relatively short period, Category 2 repairs can rapidly developinto more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the Property. This is particularly true during slow market conditions when the effect can be considerable. Parts of the Property which cannot be seen or accessed will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

#### 2.4 Services

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

#### 2.5 Accessibility

A section is included to help identify the basic information interested parties need to know to decide whether to view a Property.

### 2.6 Energy Report

A section is included that makes provision for an Energy Report, relative to the Property. The Surveyor will collect physical data from the Property and provide such data in a format required by an accredited Eeergy company. The Surveyor cannot of course accept liability for any advice given by the energy company.

## 2.7 Valuation & Conveyancer Issues

The last section of the Report contains matters considered relevant to the conveyancer (solicitor). It also contains the Surveyor's opinion both of the market value of the Property and of the re-instatement cost, as defined below.

"Market Value" is the estimated amount for which a property should exchange on the date of valuation within a willing buyer and willing seller in an arms-length transaction after proper marketing wherein the parties have each acted knowledgably, prudently and without compulsion. In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of uninspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- There are no particularly troublesome or unusual legal restrictions.
- There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a re-inspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.

It is assumed that any relevant Local Authority consents, warrants and completion certificates have been obtained where construction or alteration works have been undertaken.

This agreement and any dispute or claim arising out of or in connection with its subject matter shall be governed by and construed in accordance with the laws of Scotland, and the Scotlish Courts will have exclusive jurisdiction to hear such claims.

#### DATA PROTECTION

Graham + Sibbald and the Client each undertake that:

- (a) they shall comply with all applicable requirements of the Data Protection Legislation, including without limitation any obligations relating to the rights of a data subject and the reporting of personal data breaches (all as defined in the UK GDPR); and
- (b) not do or omit to do anything which puts any other party to the Agreement in breach of the Data Protection Legislation.

Without prejudice to the generality of this clause, you shall ensure that you have all necessary appropriate consents and notices in place to enable lawful transfer of the personal data to Graham + Sibbald for the duration and purposes of this Agreement. You shall have liability for and shall indemnify Graham + Sibbald for any loss, liability, costs (including legal costs), damages, or expenses resulting from any breach by you of the Data Protection Legislation. For further information regarding how Graham + Sibbald processes personal data in relation to this Agreement, please see Graham + Sibbald's privacy notice at <a href="https://www.g-s.co.uk/privacy-policy/">https://www.g-s.co.uk/privacy-policy/</a>.

## **MORTGAGE VALUATION - CONDITIONS OF ENGAGEMENT**

In these Terms and Conditions of Engagement, the following expressions shall have the following meanings:

"Agreement" means these Terms and Conditions of Engagement, the Instructions and the confirmation letter issued by Graham + Sibbald.

"Client"/"you"/"your" means the person, firm, company, organisation or other entity engaging Graham + Sibbald to provide the inspection services.

"Data Protection Legislation" means the UK Data Protection Legislation and any other European Union legislation relating to personal data and all other legislation and regulatory requirements in force from time to time which apply to a party relating to the use of personal data (including, without limitation, the privacy of electronic communications).

"Graham + Sibbald"/"we"/"us"/"our" means Graham + Sibbald LLP, a limited liability partnership incorporated in Scotland (Registered Number SO307130) and having its registered office address at Seabraes House, 18 Greenmarket, Dundee, DD1 4QB.

"Instructions" means the written or verbal instructions by the Client to Graham + Sibbald, which appoint Graham + Sibbald to provide the inspection services.

"Property" means the property identified and described in the Instructions.

"UK Data Protection Legislation" means all applicable data protection and privacy legislation in force from time to time in the UK including the UK GDPR; the Data Protection Act 2018; the Privacy and Electronic Communications Directive 2002/58/EC (as updated by Directive 2009/136/EC) and the Privacy and Electronic Communications Regulations 2003 (SI 2003/2426) as amended.

"UK GDPR" has the meaning given to it in section 3(10) (as supplemented by section 205(4)) of the Data Protection Act 2018.

A valuation for mortgage is a limited inspection and report produced for building societies, banks and other lenders to enable them to make a lending decision. IT IS NOT A SURVEY. Unless otherwise stated the date of valuation will be the date of inspection.

This report is used to guide the lender on the market value of the Property for mortgage purposes and is carried out for this purpose alone. Although the inspection will be carried out by a valuer who will usually be a qualified surveyor it is not a detailed inspection of the Property, and only major visible defects will be noted. Subject to reasonable accessibility, the roof space is inspected only to the extent visible from the access hatch without entering it. The surveyor will not inspect under floor areas, communal roof space or other parts not readily accessible. The exterior and roof of the Property will be inspected from ground level only from within the boundaries of the site and adjacent/communal public areas. The area of the Property will be taken into account, and the rooms individually inspected, but floor coverings and furniture will not be moved. Services (such as water, gas, electricity and drainage) will not be tested and we will not advise as to whether these comply with regulations in respect of these services.

The surveyor may recommend that a part of the mortgage be retained by the lenders until such time as particular repair works are carried out. Similarly, the report may suggest that the borrower should undertake to carry out certain repairs or commission more extensive investigation where hidden defects are suspected since these may have a material effect on the value of the Property. If a retention is recommended then the figure should not be regarded as an estimate of repair costs. Its purpose is to protect the interests of the lending institution. It is recommended that detailed estimates be obtained before proceeding with the purchase. Attention is drawn to the fact that if a subsequent transcription of this report is prepared on a lenders form, then in order to comply with the lenders specific requirements, the wording or phraseology may differ. Many people rely on the mortgage valuation certificate in the mistaken belief that it is a detailed survey. The report is often made available to house buyers by lenders, but this does not mean that it should be relied upon as a report on the condition of the building.

The definition of 'market value' is the estimated amount for which a Property should exchange on the date of valuation, between a willing buyer and a willing seller in an arms-length transaction after proper marketing wherein the parties had acted knowledgeably, prudently and without compulsion. For the purpose of this market value the surveyor has assumed that vacant posession will be provided. Unless otherwise stated the surveyor has valued the interest on a comparable basis.

The inspection that has been undertaken should not be regarded as a survey. The surveyor did not inspect parts of the Property which were covered, unexposed or inaccessible and are therefore unable to report that any such part of the Property is free from defect. Defects which are not considered materially to affect the value of the Property or other matters which would be attended to during maintenance, may not have been mentioned. If defects have been mentioned in this report, they should be regarded as indicative and not exhaustive. For the purposes of this valuation the surveyor assumes that all uninspected areas are free from defect which would have a material effect on value.

In accordance with our normal practice, we must state that this report is for the use only of the party to whom it is addressed or their named client and no responsibility is accepted to any third party for the whole or any part of its content.

In addition, we would bring to your attention that neither the whole nor any part of this report, nor any reference thereto, may be included in any document, circular or statement without prior written approval of the form and context in which it will appear.

The surveyor shall, unless otherwise expressly agreed, rely upon information provided by the Client and/or the Client's legal or other professional advisers relating to tenure, leases and all other relevant matters.

For the purposes of this valuation the surveyor has assumed that all ground burdens are nominal or have been redeemed and that there are no unusual outgoings or onerous restrictions contained within the titles of which we have no knowledge. The surveyor has further assumed that the subjects are unaffected by any adverse planning proposals.

Unless otherwise stated, it is assumed that all the required valid planning permissions and statutory approvals for the building and for their use, including any recent or significant extensions or alterations, have been obtained and complied with. It has been further assumed that no deleterious or hazardous materials or techniques have been used in the construction of the subject and that there is no contamination in or from the ground or from the immediate surrounds.

The surveyor will not carry out an asbestos inspection and will not be acting as an asbestos inspector in completing a valuation inspection of Property that may fall within the Control of Asbestos Regulations 2012. No enquiry of the duty holder, as defined in the Control of Asbestos Regulations 2012, of the existence of an asbestos register, or of any plan for the management of asbestos will be made. Your legal adviser/conveyancer should confirm the duty holder under these regulations, the availability of an asbestos register and the existence and management of any asbestos containing materials. For the purposes of this valuation, the surveyor has assumed that there is a duty holder, as defined in the Control of Asbestos Regulations 2006, and that a register of asbestos and effective management plan is in place which does not require any immediate expenditure or pose a significant risk to health or breach the HSE Regulations.

The surveyor confirms that this mortgage valuation is prepared in accordance with the RICS Valuation - Global Standards 2017 and incorporating IVSC International Valuation Standards and, unless other stated, we are External Valuers as defined therein. Further information may also be obtained from the Royal Institution of Chartered Surveyors in Scotland, 3rd Floor, 125 Princes Street, Edinburgh EH2 4AD. Tel no 0131 225 7078.

As part of this remit, the surveyor may, where he/she feels qualified and experienced to do so, provide general comment on standard appropriate supplementary documentation, presented to us by the Client's lender and conveyancer. In the event of a significant amount of documentation being provided to us, an additional fee may be incurred. Any additional fees will be agreed with you in advance.

We confirm that Graham + Sibbald operates formal procedures to deal with complaints from clients in accordance with By-law 19, Regulation 2.7 of the Royal Institution of Chartered Surveyors Rules of Conduct and Disciplinary Procedures. A copy of this procedure is available on request.

Graham + Sibbald's total liability to the Client (and any third party relying upon this report) under this Agreement (including liability in contract, tort (including negligence), breach of statutory duty, or otherwise) shall be limited to the lower of the following: a) 25% of the valuation or b) £250,000.

This agreement and any dispute or claim arising out of or in connection with its subject matter shall be governed by and construed in accordance with the laws of Scotland, and the Scottish courts will have exclusive jurisdiction to hear such claims.

Graham + Sibbald and the Client each undertake that: (a) they shall comply with all applicable requirements of the Data Protection Legislation, including without limitation any obligations relating to the rights of a data subject and the reporting of personal data breaches (all as defined in the UK GDPR); and (b) not do or omit to do anything which puts any other party to the Agreement in breach of the Data Protection Legislation.

Without prejudice to the generality of this clause, you shall ensure that you have all necessary appropriate consents and notices in place to enable lawful transfer of the personal data to Graham + Sibbald for the duration and purposes of this Agreement. You shall have liability for and shall indemnify Graham + Sibbald for any loss, liability, costs (including legal costs), damages, or expenses resulting from any breach by you of the Data Protection Legislation. For further information regarding how Graham + Sibbald processes personal data in relation to this Agreement, please see Graham + Sibbald's privacy notice at https://www.g-s.co.uk/privacy-policy/.

# **Energy Performance Certificate (EPC)**

**Dwellings** 

# **Scotland**

## KIRKSTANE HOUSE, GLEBE LAND, KIRKTON OF SKENE, WESTHILL, AB32 6XE

**Dwelling type:** Detached house Date of assessment: 19 April 2023 Date of certificate: 10 May 2023 **Total floor area:** 331 m<sup>2</sup>

**Primary Energy Indicator:** 268 kWh/m<sup>2</sup>/year Reference number: 7117-0424-1200-0431-3292 RdSAP, existing dwelling Type of assessment:

Approved Organisation: **Elmhurst** 

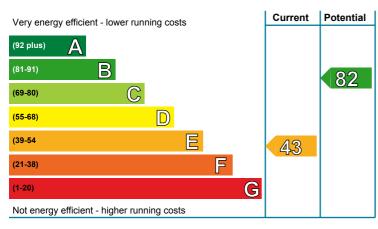

Main heating and fuel: Boiler and radiators, oil

## You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO<sub>2</sub> emissions by improving your home

Estimated energy costs for your home for 3 years*	£22,776	See your recommendations report for more information
Over 3 years you could save*	£10,521	

<sup>\*</sup> based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

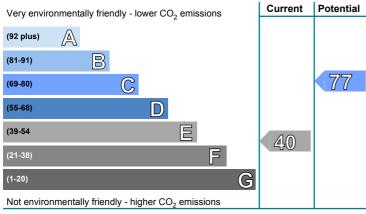

## **Energy Efficiency Rating**

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is band E (43). The average rating for EPCs in Scotland is band D (61).

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

## **Environmental Impact (CO<sub>2</sub>) Rating**

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO<sub>2</sub>) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is band E (40). The average rating for EPCs in Scotland is band D (59).

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

# Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years
1 Room-in-roof insulation	£1,500 - £2,700	£2376.00
2 Internal or external wall insulation	£4,000 - £14,000	£4944.00
3 Floor insulation (suspended floor)	£800 - £1,200	£483.00

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit greenerscotland.org or contact Home Energy Scotland on 0808 808 2282.

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE **DWELLING AND NOT BE REMOVED UNLESS IT IS** REPLACED WITH AN UPDATED CERTIFICATE

## Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Granite or whinstone, as built, no insulation (assumed)	***	***
Roof	Pitched, 250 mm loft insulation Roof room(s), ceiling insulated	**** ***	**** ***
Floor	Solid, no insulation (assumed) Suspended, no insulation (assumed)	_ _	_ _
Windows	Mostly double glazing	<b>★★★★</b> ☆	<b>★★★★</b> ☆
Main heating	Boiler and radiators, oil	***	<b>★★★☆☆</b>
Main heating controls	Programmer, room thermostat and TRVs	****	<b>★★★★</b> ☆
Secondary heating	Room heaters, wood logs	_	_
Hot water	From main system, no cylinder thermostat	***	***
Lighting	Low energy lighting in 35% of fixed outlets	***	***

## The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO<sub>2</sub> emissions, running costs and the savings possible from making improvements.

# The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 64 kg CO<sub>2</sub>/m<sup>2</sup>/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 21 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 12.6 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

Estimated energy costs	for this	home
------------------------	----------	------

	Current energy costs	Potential energy costs	Potential future savings
Heating	£19,401 over 3 years	£10,542 over 3 years	
Hot water	£1,896 over 3 years	£819 over 3 years	You could
Lighting	£1,479 over 3 years	£894 over 3 years	save £10,521
Totals	£22,776	£12,255	over 3 years

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

## **Recommendations for improvement**

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Recommended measures		Indicative cost	Typical saving	Rating after improvement		
		indicative cost	per year	Energy	Environment	
1	Room-in-roof insulation	£1,500 - £2,700	£792	E 49	E 45	
2	Internal or external wall insulation	£4,000 - £14,000	£1648	D 63	D 57	
3	Floor insulation (suspended floor)	£800 - £1,200	£161	D 64	D 59	
4	Floor insulation (solid floor)	£4,000 - £6,000	£129	D 65	D 60	
5	Low energy lighting for all fixed outlets	£75	£162	D 66	D 61	
6	Replace boiler with new condensing boiler	£2,200 - £3,000	£613	C 71	D 67	
7	Solar photovoltaic panels, 2.5 kWp	£3,500 - £5,500	£592	C 74	C 71	
8	Wind turbine	£15,000 - £25,000	£1318	B 82	C 77	

# Choosing the right improvement package

## About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

## 1 Room-in-roof insulation

Insulating roof rooms will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. If it has a flat ceiling insulation can usually be added above the ceiling, and sloping ceilings and walls of roof rooms can be insulated using an internal lining board. Roof voids must have adequate ventilation to prevent dampness; seek advice about this if unsure. Further information about roof room insulation and details of local contractors can be obtained from the National Insulation Association (www.nationalinsulationassociation.org.uk). Building regulations generally apply to this work so it is best to check this with your local authority building standards department.

### 2 Internal or external wall insulation

Internal or external wall insulation involves adding a layer of insulation to either the inside or the outside surface of the external walls, which reduces heat loss and lowers fuel bills. As it is more expensive than cavity wall insulation it is only recommended for walls without a cavity, or where for technical reasons a cavity cannot be filled. Internal insulation, known as dry-lining, is where a layer of insulation is fixed to the inside surface of external walls; this type of insulation is best applied when rooms require redecorating. External solid wall insulation is the application of an insulant and a weather-protective finish to the outside of the wall. This may improve the look of the home, particularly where existing brickwork or rendering is poor, and will provide long-lasting weather protection. Further information can be obtained from the National Insulation Association (www.nationalinsulationassociation.org.uk). It should be noted that a building warrant is required for the installation of external wall insulation. Planning permission may also be required and that building regulations apply to external insulation so it is best to check with your local authority on both issues.

## 3 Floor insulation (suspended floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Suspended floors can often be insulated from below but must have adequate ventilation to prevent dampness; seek advice about this if unsure. Further information about floor insulation is available from many sources including www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation. Building regulations generally apply to this work so it is best to check with your local authority building standards department.

## 4 Floor insulation (solid floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Insulating solid floors can present challenges; insulation laid on top of existing solid floors may impact on existing doors and finishes whilst lifting of a solid floor to insert insulation below will require consideration of the potential effect on both structural stability and damp proofing. It is advised to seek advice from a Chartered Structural Engineer or a registered Architect about this if unsure. Further information about floor insulation is available from many sources including www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation. Building regulations generally apply to this work and may also require a building warrant so it is best to check with your local authority building standards department.

## 5 Low energy lighting

Replacement of traditional light bulbs with energy saving bulbs will reduce lighting costs over the lifetime of the bulb, and they last many times longer than ordinary light bulbs. Low energy lamps and fittings are now commonplace and readily available. Information on energy efficiency lighting can be found from a wide range of organisations, including the Energy Saving Trust (http://www.energysavingtrust.org.uk/home-energy-efficiency/lighting).

## 6 Condensing boiler

A condensing boiler is capable of much higher efficiencies than other types of boiler, meaning it will burn less fuel to heat this property. This improvement is most appropriate when the existing central heating boiler needs repair or replacement, however there may be exceptional circumstances making this impractical. Condensing boilers need a drain for the condensate which limits their location; remember this when considering remodelling the room containing the existing boiler even if the latter is to be retained for the time being (for example a kitchen makeover). Building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority building standards department and seek advice from a qualified heating engineer.

## 7 Solar photovoltaic (PV) panels

A solar PV system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for solar photovoltaic panels, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

## 8 Wind turbine

A wind turbine provides electricity from wind energy. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Wind turbines are not suitable for all properties. The system's effectiveness depends on local wind speeds and the presence of nearby obstructions, and a site survey should be undertaken by an accredited installer. Planning permission might be required and building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for a wind turbine, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

## Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

## LZC energy sources present:

Biomass secondary heating

## Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit https://energysavingtrust.org.uk/energy-at-home for more information.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	54,995	N/A	N/A	(13,336)
Water heating (kWh per year)	5,440			

## **Addendum**

This dwelling has stone walls and so requires further investigation to establish whether these walls are of cavity construction and to determine which type of wall insulation is best suited. The property also requires further consideration of how to access the walls for installation of wall insulation.

## **About this document**

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst (www.elmhurstenergy.co.uk), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

Assessor's name: Mr. Darroch Robertson

Assessor membership number: EES/009448
Company name/trading name: Graham & Sibbald
Address: 21 Carden Place
Aberdeen

Phone number:

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

## Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

# Advice and support to improve this property

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit greeners cotland.org or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.

Completion date of property questionnaire

23/3/2020

# GRAHAM + SIBBALD

## Note for sellers

- Please complete this form carefully. It is important that your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the date of entry for the sale of your house, tell your solicitor or estate agent immediately.

# Information to be given to prospective buyer(s)

1.	Length of ownership
	How long have you owned the property? 40 YEARS
2.	Council tax
	Which Council Tax band is your property in? (Please tick one)  ☐ A ☐ B ☐ C ☐ D ☐ E ☐ F ☐ G ☐ H
3.	Parking
	What are the arrangements for parking at your property?  (Please tick all that apply)
	• Garage
	Allocated parking space
	• Driveway
	Shared parking
	• On street
	Resident permit
	Metered parking
	Other (please specify): PARKING AT HOUSE FOR MANY CARS
4.	Conservation area
	Is your property in a designated Conservation Area (that is an area of special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)?

.

5.	Listed buildings	alebel i
	Is your property a Listed Building, or contained within one (that is a building recognised and approved as being of special architectural or historical interest)?  GRADE B LISTING,	☑ Yes ☐ No
6.	Alterations/additions/extensions	115.00 Lave
a.	(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example, provision of an extra bath/shower room, toilet, or bedroom)?  If you have answered yes, please describe below the changes which	DerYes ☐ No Bulding
	YOU have made:  SHOWER ROOM IN FORMER PRIVITY - NOT STRUCTURAL?	Barbour ?
	(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?  If you have answered yes, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking.  If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them:	Yes  No Buldin 7 world 1981.
b.	Have you had replacement windows, doors, patio doors or double glazing installed in your property?	☐ Yes☐ No
	If you have answered yes, please answer the three questions below:  (i) Were the replacements the same shape and type as the ones you replaced?	Yes No
	(ii) Did this work involve any changes to the window or door openings?	☐ Yes ☐ No
	(iii) Please describe the changes made to the windows doors, or patio of approximate dates when the work was completed):  POORS _ 2 SOLID WOOD DOORS, I GLAZED DOOR _ 1981/ WINDOWS _ ALL 16 WINDOWS REPLACED + 2 SKY LIGHTS - 6 VER 4  Please give any guarantees which you received for this work to your so agent.	2 GYEARS GRECENT

7.	Central heating	No trained to
a.	Is there a central heating system in your property?  (Note: a partial central heating system is one which does not heat all the main rooms of the property —  the main living room, the bedroom(s), the hall and the bathroom).  If you have answered yes or partial — what kind of central heating is there?  (Examples: gas-fired, solid fuel, electric storage heating, gas warm air).  OIL.  If you have answered yes, please answer the three questions below:  (i) When was your central heating system or partial central heating is the system of partial central heating is the s	
	(ii) Do you have a maintenance contract for the central heating system?  If you have answered yes, please give details of the company with which you have a maintenance contract:  But REGULAR HAINTENANCE BY ALISTAIR, MOWRT, LTD.  (iii) When was your maintenance agreement last renewed? (Please and year).	Yes No
8.	Energy Performance Certificate	
	Does your property have an Energy Performance Certificate which is less than 10 years old?	☐ Yes☐ No
9.	Issues that may have affected your property	Suprincips 1
a.	Has there been any storm, flood, fire or other structural damage to your property while you have owned it?  If you have answered yes, is the damage the subject of any outstanding insurance claim?	☐ Yes ☐ No ☐ Yes ☐ No
b.	Are you aware of the existence of asbestos in your property?  If you have answered yes, please give details:	☐ Yes ☑ No

10.	Services	en de la composición	offer our smithle	i dangeta - da		
a. Please tick which services are connected to your property and give details of the supplier:						
	Services	Connected	Supplier	ephanel hear		
	Gas or liquid petroleum gas					
	Water mains or private water supply					
	Electricity		BRITISH	q n s		
	Mains drainage	No	No			
	Telephone	V	BT	e g 2		
	Cable TV or satellite	No				
	Broadband	V	BT	V .		
		8	•			
b.	Is there a septic tank system a If you have answered yes, plea		ions below:	☑ Yes ☐ No		
	WE ILLIE	rge from your	Yes  No Don't Know			
	(v) Do you have a mainten  If you have answered yes, plea which you have a maintenance  NEVER REQUIRE	☐ Yes ☐ No				

11.	Responsibilities for shared or common areas	BILLIE W
a.	Are you aware of any responsibility to contribute to the cost of anything used jointly, such as the repair of a shared drive, private road, boundary, or garden area? - SHOULD BE NO MAINTENANCE FOR SEVERA LYEARS  If you have answered yes, please give details: KH WILL BE RESPONSIBLE FOR 1/4 SHARE OF MAINTENANCE OF DRIVE. FOR HANSE ETC. ROAD TO BE MADE UP 2020 COST TO PHINTENANCE	✓ Yes  ☐ No ☐ Don't Know
b.	Is there a responsibility to contribute to repair and maintenance of the roof, common stairwell or other common areas?  If you have answered yes, please give details:  LOFT INSULATION UNDER GOVERNMENT SCHEME - 2009	☐ Yes ☐ No ☐ Not applicable
c.	Has there been any major repair or replacement of any part of the roof during the time you have owned the property?	☐ Yes ☑ No
d.	Do you have the right to walk over any of your neighbours' property—for example to put out your rubbish bin or to maintain your boundaries?  If you have answered yes, please give details:  RIGHT OF WAY UP ROAD FROM VILLAGE OWNED BY CHURCH—SEE C.	☑ Yes ☐ No
e.	As far as you are aware, do any of your neighbours have the right to walk over your property, for example to put out their rubbish bin or to maintain their boundaries?  If you have answered yes, please give details:	☐ Yes ☑ No
f.	As far as you are aware, is there a public right of way across any part of your property? (public right of way is a way over which the public has a right to pass, whether or not the land is privatelyowned.)  If you have answered yes, please give details:	☐ Yes ☑ No
12.	Charges associated with your property	- T
a.	Is there a factor or property manager for your property?  If you have answered yes, please provide the name and address, and give details of any deposit held and approximate charges:	☐ Yes ☑ No

b.	Is there a common buildings insurance policy?  If you have answered yes, is the cost of the insurance included in your monthly/annual factor's charges?  Please give details of any other charges you have to pay on a regular lupkeep of common areas or repair works, for example to a residents' a maintenance or stair fund.	
13.	Specialist works	ogil isaupisa (va)
a. b.	As far as you are aware, has treatment of dry rot, wet rot, damp or any other specialist work ever been carried out to your property?  If you have answered yes, please say what the repairs were for, whether you carried out the repairs (and when) or if they were done before you bought the property.  COMPLETE HOUSE TREATHER FOR WOOD WORM - 1981  As far as you are aware, has any preventative work for dry rot, wet rot, or damp ever been carried out to your property?  If you have answered yes, please give details:	Yes No Yes No Yes
		,
c.	If you have answered yes to 13(a) or (b), do you have any guarantees relating to this work?  If you have answered yes, these guarantees will be needed by the purchaser and should be given to your solicitor as soon as possible for checking. If you do not have them yourself please write below who has these documents and your solicitor or estate agent will arrange for them to be obtained. You will also need to provide a description of the work carried out. This may be shown in the original estimate.  Guarantee FOR 30YEARS - OUT OF PATE NOW WOODWORM FOOND IN GUARANTEE FOOND IN G	Yes No NoT No W

14.	Guarantees	i someting	rv-namiž		make to art a	1
a.	Are there any guarantees or warranties for any of the following:					
	*	No	Yes	Don't know	With title deeds	Lost
(i)	Electrical work					
(ii)	Roofing			W.		
(iii)	Central heating			Ū
