Located in the historic village of Grampound, which lies in the beautiful valley of the River Fal. It was settled in prehistoric times and in the early medieval period the parish of Creed. Grampound grew after the Norman conquest as the main crossing place on the Fal, a focus for travellers and traders moving between west Cornwall and England. Grampound became one of the important towns in medieval Cornwall with a rich and vibrant history. Situated between the Cathedral city of Truro and newly regenerated town of St Austell. The nearby Roseland Peninsular and coastal area of St Mawes are within a short drive.

A shared walkway leads up to provide rear access and also this property's elevated garden. Located on the right hand side of the walkway an initial productive planting bed complete with pebbled walkway leads to an additional area of lawn with established planting bed to the right and rear corner. This area is well enclosed with rendered block wall to the left and rear. Two steps then lead up to a further area of lawn again well enclosed with rendered wall to the front left and rear elevations with continuation of the stone wall to the right, again this area is laid to lawn and well stocked with an array of plants and shrubbery via elevated planting beds to the left and right. A paved walkway then provides access to the parking area for the property, laid to hardstanding and accessed directly off Mill Lane.

Agents Note : The mid terrace property has access over this driveway. Agents Note: We understand satellite dishes are not permitted at the front of the building. Agents Note: There is no solid boundary between the courtyard of this property and that of the mid-terrace property but the boundary can be easily defined with the change of line of the hardstanding area. If preferred it would be relatively easy to erect a solid boundary wall/fence and create new steps to the elevated area, thereby creating a more private and enclosed garden.
