

Somerset Road, Redhill

£2,000 Per Month

“

Spread out over three floors, this pretty semi-detached home would be perfect for any couple or young family.

”

Spread out over three floors, this pretty semi-detached home would be perfect for any couple or young family.

Lightly refurbished, the neutral décor throughout will make adding your own personal touch easy, the large windows throughout keep each room bright all year round and the original fireplaces in two of the bedrooms will create a beautiful feature piece to pull them together for that traditional touch.

You enter into the bright living room, it's wooden flooring keeps cleaning to a minimum and the chimney alcoves would be a great space for shelving so you can proudly displace those much-loved family photos. Following through to the rear of the property is the kitchen/dining room with under stair cupboard and access to the utility room. For any keen creative types, this could be turned into a great entertaining space to show off your culinary skills to friends.

Upstairs there are three double bedrooms, all great sizes and the third bedroom has some excellent views of the surrounding countryside. The family bathroom is incredibly vast, with a wet room style along with a bathtub where you can relax after a long day.

The secure garden has a neat decking providing space for some luxury garden furniture along with a BBQ, perfect for the summer and gathering. As you make your way down the steps to the paved terrace you can add in a variety of potted plants to add a splash of color.

There are great local schools, all of which are within walking distance. Earlswood Lakes are nearby for dog walkers, a golf course, and the local shops if you need to pop out quickly. The Plough pub is within walking distance for a good family-style meal and St John's Church is a community church with many attendees.

Need to know

- Beautifully presented semi-detached home set over three floors — ideal for couples or young families.
