OUTSIDE

There is a patterned concrete driveway to the front proving off road parking with slate shrub beds and timber panelled fencing. A block paved path to the side leads through a wrought iron gate and into the rear garden. There is a further

driveway to the rear of the plot which is accessed through double gates from the side boundary.

The rear garden is a generous size with block paved patio, timber decked seating area, artificial lawn and raised timber planted beds. To the side boundary are wrought iron and composite panelled double gates which lead onto a large tarmac driveway which then leads onto a paved and gravelled area, which in all, could provide parking for at least four vehicles. We understand from the owner, planning permission had originally been passed for a garage when the house was first built to which there is ample space.
