PROPERTY

DUNDASHILL

A unique collection of 78 sustainably constructed three and four bedroom townhouses, designed by Scotland's leading architects to offer versatile, contemporary accommodation with A-rated energy efficiency credentials.

Designed in Glasgow by award-winning architects Stellan Brand & Ann Nisbet with energy saving influences from Carbon Futures, all homes at Maltings Wynd in DUNDASHILL offer flexible, exciting living spaces and have been carefully considered to meet the demands of modern, city centre living.

A partnership between Places for People igloo and Housing Growth Partnership is delivering Phase Two of DUNDASHILL, called Maltings Wynd. These homes - a mix of 3 and 4-bedroom townhouses - are for sale and provide an opportunity for contemporary, low carbon, urban living. Construction started in January 2023 and will finish in Spring 2025, with first handovers from early Spring 2024.

DUNDASHILL

The Master Plan

The masterplan envisages DUNDASHILL as a new place to live defined by landscaped streets and paths that stitch together spaces for the new community to enjoy, from play areas, shared gardens and viewing platforms to street art murals and a new central square.

West of Scotland Housing Association is delivering Phase One, 90 mid-market rental apartments, being built to Passivhaus standard. This development will complete in 2023.

Maltings Wynd is Phase Two of the development and will deliver A-rated three and four-bedroom townhouses, providing a rare opportunity for contemporary, low carbon, urban living. Construction started in January 2023 and will finish in Spring 2025, with first handovers from early Spring 2024.

Future phases will be shaped and delivered by the partners involved, firmly in the belief that the best places are built at different times, by different developers using different architects. Plans for temporary use of these development plots are being considered too.

DEVELOPMENT

Ann Nisbet Studio
Architecture-Research-Design

Stallan-Brand

With a choice of bespoke designs from award winning Glasgow based practices Stallan Brand and Ann Nisbet Studio, Maltings Wynd homes at DUNDASHILL exemplify crafted architecture offering a range of open plan layouts, garden spaces and views. Lower carbon footprints come as standard with each home having a heat pump and solar panels.

DUNDASHILL

Maltings Wynd

Maltings Wynd is the name of this phase of the DUNDASHILL development, being built on what is known as Plot 4A of the DUNDASHILL masterplan.

DUNDASHILL is one of the most exciting developments in Scotland. Situated at the Northern edge of Glasgow's bustling city centre, within walking distance of Buchanan Street - a stunning new destination which will develop into a multi-generational neighbourhood that offers immediate access to amenities.

Formed above the Forth & Clyde canal with its superb network of tow paths which lead to the West End of Glasgow - this is an optimum position for those who wish to walk, cycle, run or E-scooter to places of work & institutions of study.

If you are still commuting throughout West Central Scotland by electric car for business - DUNDASHILL is handy for gaining rapid access to the M8 motorway.

Our policy of continuous improvement may result in changes to individual property plans, and site layouts and individual features such as windows, doors, brick and other material colours may vary, as may heating and electrical layouts.

DUNDASHILL

Buying From Us

The Developer

Maltings Wynd is being developed by a partnership between Places for People Capital and Housing Growth Partnership, called 'Dundashill 4A Limited', (D4AL). You will buy your home from D4AL.

igloo Regeneration is managing the delivery of Maltings Wynd on behalf of D4AL.

The Builder

CCG has been commissioned by D4AL to build the homes. CCG is a market-leading, privately-owned construction and manufacturing company based in Glasgow that has a specialism in using Modern Methods of Construction.

CCG has a building experience that spans over 40 years and has delivered award-winning projects including Maryhill Locks, the Commonwealth Games Village and the Anderston regeneration project.

The Consumer Code for Home Builders

"The Code" is an industry-led scheme which gives protection and rights to purchasers of new homes, ensuring that new Home Buyers are treated fairly and are fully informed about their purchase before and after they sign the contract.

For any further information on the Consumer Code visit - www.consumercode.co.uk

Checkmate Warranty

Your 'Castle 10' new home warranty will be provided by Checkmate, which runs for 10 years from the date the home is complete and Checkmate issue the certificate.

A copy of the Policy will be provided to your solicitors as part of the Reservation Agreement process and can also be found here;
