Maps
Coal Mining

This map displays nearby coal mine entrances and their classifications.

Mine Entry

✕ Adit
✕ Gutter Pit
✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Maps
Conservation Areas

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.
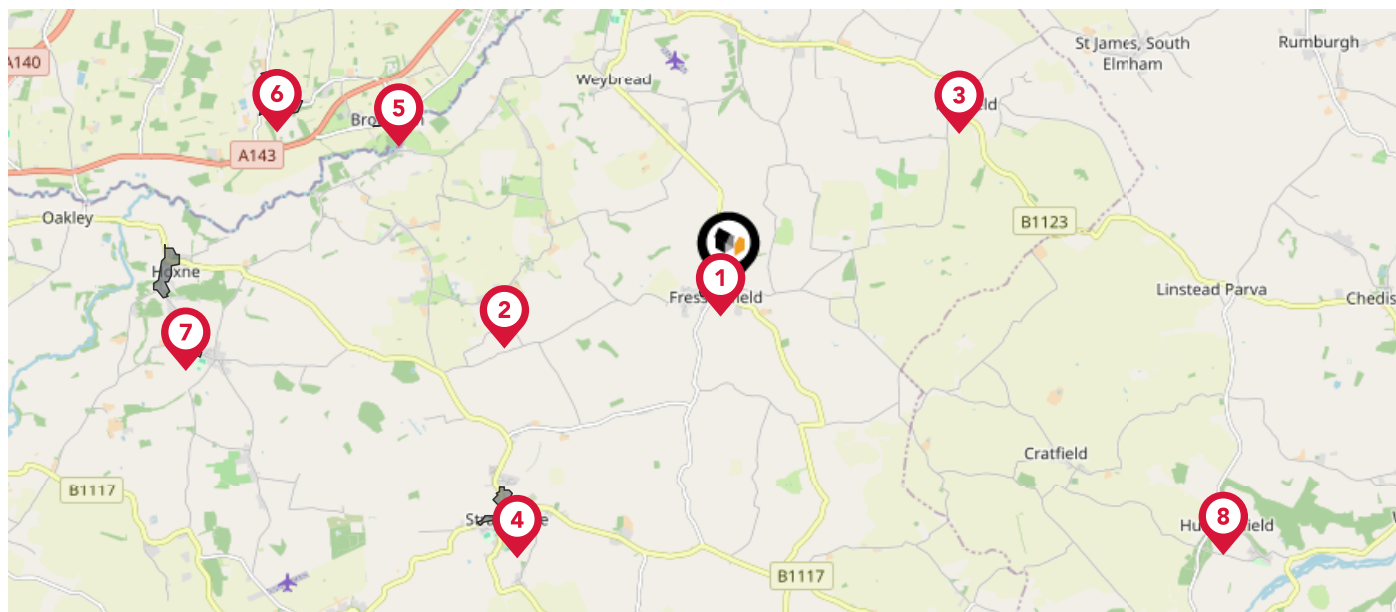

Nearby Conservation Areas

8   Bungay & Wainford Ward
9   Palgrave Ward
10   Halesworth & Blything Ward

Maps
Rail Noise

WP

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...
Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5	75.0+ dB	🟥
4	70.0-74.9 dB	🟧
3	65.0-69.9 dB	🟨
2	60.0-64.9 dB	🟩
1	55.0-59.9 dB	🟦

Flood Risk
Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

High Risk - an area which has a chance of flooding of greater than **1 in 30 (3.3%)** in any one year.

Medium Risk - an area which has a chance of flooding of greater than **1 in 100 (1.0%)** in any one year.

Low Risk - an area which has a chance of flooding of greater than **1 in 1000 (0.25%)** in any one year.

Very Low Risk - an area in which the risk is below **1 in 1000 (0.25%)** in any one year.

Chance of flooding to the following depths at this property:

		Very Low	Low	Medium	High
Up to 20cm (8in)					
Up to 30cm (1ft)					
Up to 60cm (2ft)

Flood Risk
Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

■ **High Risk -** an area which has a chance of flooding of greater than **1 in 30 (3.3%)** in any one year.

■ **Medium Risk -** an area which has a chance of flooding of greater than **1 in 100 (1.0%)** in any one year.

■ **Low Risk -** an area which has a chance of flooding of greater than **1 in 1000 (0.1%)** in any one year.

■ **Very Low Risk -** an area in which the risk is below **1 in 1000 (0.1%)** in any one year.

Chance of flooding to the following depths at this property:

		Very Low	Low	Medium	High
● Up to 20cm (8in)					
●● Up to 30cm (1ft)					
●●● Up to 60cm (2ft)

Environment
Radon Gas

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

About Us

Whittley Parish | Diss

At Whittley Parish, we strive to offer the best experience for all of our valued clients. We employ an experienced team and support our people with the best processes, cutting edge technology, marketing and training. We continue to improve and learn from feedback to strive to be the best at what we do and achieve.

Our proactive approach combined with advertising across four major property portals (Rightmove, Zoopla, onthemarket.com and Primelocation) as well as on social media platforms; coupled with our large database of registered applicants allows us to promote our properties to the widest target market.

With family roots still at the heart of all operations, Alex Parish ensures the original ethos and vision continues to run throughout the company's core, never comprising the personal service its reputation has been built upon.

Testimonials

Testimonial 1

★★★★★

It was a pleasure doing business with the Attleborough branch. Kept to every promise made and acted really fast. Made a stressful time far less stressful.

Testimonial 2

★★★★★

We asked Whittley Parish Diss to carry out a house valuation for us. Alex Parish came to do the job - he was kind, considerate and professional. The process was thorough but yet quick and easy for us. We couldn't ask for more - many thanks.

Testimonial 3

★★★★★

The whole team at Whitley Parish were first class from first introduction to final sale. With lots of estate agents in the Long Stratton area, this is the only one you need to know. Excellent would highly recommend.
