Rear Garden

One of the most delightful and prettiest gardens I have ever been in, that is enclosed by original stone walls. Stepping out of the dining room bi-fold doors, there is a large decking area with plenty of space for outdoor furniture, an original stone encased pond with a water feature, outdoor tap, outdoor lighting, raised flower, shrub and tree border and steps which lead to a second tier which is laid to patio with flower, shrub and tree borders with also plenty of space for seating,. From here there are further steps with an adjacent flower bed which lead to a third tier which has a lawn area and a decked area with a pergola over and shingle stone area perfect for outdoor pots. This area would make a fabulous outdoor barbeque spot for al fresco dining. From here you head to the rear of the garden where on the way is a shingle stone area housing shrubs and trees and a path taking you to brick built outdoor store with a glazed window and solid wooden door. To the very rear is a large level lawn with flower, shrub

and tree borders, a greenhouse and a beautiful poppy flower bed. Growing vegetables here would be perfect!
