Outside

There is a huge driveway in with off street parking for at least 10 cars, there is a sizeable carport with power and lighting, a cosy office again with power and lighting, and a wonderful outbuilding / storage building, again with power and lighting. This barn is approximately 42ft x 18th.

There are various beautifully maintained garden areas with a little summer house, a shed and with a range of flower and shrub beds and borders throughout.

The back garden area has previously had plans drawn up for a property to be built, so subject to the necessary planning consents, you could possibly build at the bottom.

Arguably the main selling point of the property is the huge terrace along the back of the new extension, what a beautiful place to enjoy outdoor living, eating, BBQ's and obviously, just sitting with a drink and admiring all that your beautiful garden has to offer!

Total area: approx. 364.5 sq. metres (3923.6 sq. feet)
