

# Energy performance certificate (EPC)

9a, Costa Row  
Long Bennington  
NEWARK  
NG23 5DY

Energy rating

D

Valid until 2 August 2026

Certificate number

0504-2897-7488-9106-9051

**Property type**

Detached house

**Total floor area**

137 square metres

## Rules on letting this property

Properties can be rented if they have an energy rating from A to E.

If the property is rated F or G, it cannot be let, unless an exemption has been registered. You can read [guidance for landlords on regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

## Energy efficiency rating for this property

This property's current energy rating is D. It has the potential to be C.

[See how to improve this property's energy performance.](#)

| Score | Energy rating | Current | Potential |
|-------|---------------|---------|-----------|
| 92+   | A             |         |           |
| 81-91 | B             |         |           |
| 69-80 | C             |         | 77   C    |
| 55-68 | D             | 67   D  |           |
| 39-54 | E             |         |           |
| 21-38 | F             |         |           |
| 1-20  | G             |         |           |

The graph shows this property's current and potential energy efficiency.

Properties are given a rating from A (most efficient) to G (least efficient).

Properties are also given a score. The higher this number, the lower your carbon dioxide (CO2) emissions are likely to be.

The average energy rating and score for a property in England and Wales are D (60).

### Breakdown of property's energy performance

This section shows the energy performance for features of this property. The assessment does not consider the condition of a feature and how well it is working.

Each feature is assessed as one of the following:

- very good (most efficient)
- good
- average
- poor
- very poor (least efficient)

When the description says 'assumed', it means that the feature could not be inspected and an assumption has been made based on the property's age and type.

| Feature              | Description                                | Rating    |
|----------------------|--|-----------|
| Wall                 | Cavity wall, filled cavity                 | Good      |
| Wall                 | Cavity wall, as built, insulated (assumed) | Good      |
| Roof                 | Pitched, 100 mm loft insulation            | Average   |
| Roof                 | Flat, insulated (assumed)                  | Average   |
| Window               | Fully double glazed                        | Average   |
| Main heating         | Boiler and radiators, mains gas            | Good      |
| Main heating control | Programmer, room thermostat and TRVs       | Good      |
| Hot water            | From main system                           | Good      |
| Lighting             | Low energy lighting in all fixed outlets   | Very good |
| Door                 | Suspended, no insulation (assumed)         | N/A       |
| Door                 | To external air, no insulation (assumed)   | N/A       |
| Door                 | Solid, limited insulation (assumed)        | N/A       |
| Secondary heating    | Room heaters, dual fuel (mineral and wood) | N/A       |

## Primary energy use

The primary energy use for this property per year is 208 kilowatt hours per square metre (kWh/m<sup>2</sup>).

[What is primary energy use?](#)

## Environmental impact of this property

One of the biggest contributors to climate change is carbon dioxide (CO<sub>2</sub>). The energy used for heating, lighting and power in our homes produces over a quarter of the UK's CO<sub>2</sub> emissions.

|   |                               |
|---|-------------------------------|
| Compared to an average household                      | 6 tonnes of CO <sub>2</sub>   |
| CO <sub>2</sub> produced by this property             | 5.2 tonnes of CO <sub>2</sub> |
| Potential CO <sub>2</sub> reduction for this property | 3.6 tonnes of CO <sub>2</sub> |

making the [recommended changes](#), you could reduce this property's CO2 emissions by 1.6 tonnes per year. This will help to protect the environment.

Environmental impact ratings are based on assumptions about average occupancy and energy use. They may not reflect how energy is consumed by the people living at the property.

## How to improve this property's energy performance

Making any of the recommended changes will improve this property's energy efficiency.

If you make all of the recommended changes, this will improve the property's energy rating and score from D (67) to C (77).

### [What is an energy rating?](#)

## Recommendation 1: Increase loft insulation to 270 mm

Increase loft insulation to 270 mm

Typical installation cost

£100 - £350

Typical yearly saving

£38

Potential rating after carrying out recommendation 1

68 | D

## Recommendation 2: Floor insulation (suspended floor)

Floor insulation (suspended floor)

Typical installation cost

£800 - £1,200

Typical yearly saving

£92

Potential rating after carrying out recommendations 1 and 2

70 | C

## Recommendation 3: Solar photovoltaic panels, 2.5 kWp

Solar photovoltaic panels

Typical installation cost

£5,000 - £8,000

Typical yearly saving

£277

## potential rating after carrying out recommendations 1 to 3

## paying for energy improvements

find [energy grants and ways to save energy in your home](https://www.gov.uk/improve-energy-efficiency). (<https://www.gov.uk/improve-energy-efficiency>)

### estimated energy use and potential savings

estimated yearly energy cost for this property

£1164

potential saving

£131

The estimated cost shows how much the average household would spend in this property for heating, lighting and hot water. It is based on how energy is used by the people living at the property.

The estimated saving is based on making all of the recommendations in [how to improve this property's energy performance](#).

For advice on how to reduce your energy bills visit [Simple Energy Advice](https://www.simpleenergyadvice.org.uk/) (<https://www.simpleenergyadvice.org.uk/>).

## heating use in this property

Heating a property usually makes up the majority of energy costs.

### estimated energy used to heat this property

space heating

15006.0 kWh per year

water heating

2436.0 kWh per year

### potential energy savings by installing insulation

type of insulation

Amount of energy saved

hot water insulation

677 kWh per year

You might be able to receive [Renewable Heat Incentive payments](https://www.gov.uk/domestic-renewable-heat-incentive) (<https://www.gov.uk/domestic-renewable-heat-incentive>). This will help to reduce carbon emissions by replacing your existing heating system with one that generates renewable heat. The estimated energy required for space and water heating will form the basis of the payments.

## Contacting the assessor and accreditation scheme

is EPC was created by a qualified energy assessor.

you are unhappy about your property's energy assessment or certificate, you can complain to the assessor directly.

you are still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

accreditation schemes are appointed by the government to ensure that assessors are qualified to carry out EPC assessments.

## Assessor contact details

|                 |  |
|-----------------|--|
| Assessor's name | Andrew Benson  |
| Telephone       | 08450945192  |
| Mail            | <a href="mailto:epcquery@vibrantenergymatters.co.uk">epcquery@vibrantenergymatters.co.uk</a> |

## Accreditation scheme contact details

|                      |  |
|----------------------|--|
| Accreditation scheme | ECMK   |
| Assessor ID          | ECMK300129   |
| Telephone            | 0333 123 1418  |
| Mail                 | <a href="mailto:info@ecmk.co.uk">info@ecmk.co.uk</a> |

## Assessment details

|                        |                         |
|------------------------|-------------------------|
| Assessor's declaration | No related party        |
| Date of assessment     | 3 August 2016           |
| Date of certificate    | 3 August 2016           |
| Type of assessment     | ▶ <a href="#">RdSAP</a> |
