

ST. MODWEN PARK LINCOLN

LN6 9BJ

///REPORTING.REWORKED.PINS

Strategically located site with direct access to A46 connecting to A1

Target rating of 'Excellent' placing this building in the top 10% of UK warehouses for sustainability

BUILD TO SUIT OPPORTUNITIES

TO LET: FROM 20,675 SQ FT (1,920 SQ M)

High performance **space** for your business

If you're looking for a **high-performing, sustainable building** that works as hard as you do, then look no further. **St. Modwen provide highly sustainable warehouses** that will deliver benefits for your business, your people and the environment.

An ideal location

St. Modwen Park Lincoln provides flexible opportunities to the occupier market within the industrial and logistics sectors. This is a unique opportunity for businesses to be located on the A46 dual carriageway, midway between Lincoln and Newark, giving excellent access to sea ports, airports and the national motorway network. The A1 is approximately 7 miles from St. Modwen Park Lincoln with access to the A1(M) via the A46. In addition, St. Modwen Park Lincoln will benefit from the Central Government investment in infrastructure improvements to the Newark interchange/bypass and completion of the Lincoln bypass. Both projects will enhance speed of travel South-West down the A46 and North-East to the Humber Freeports.

Occupational cost saving opportunities available due to **enhanced PV**.

Smart LED lighting helping you reduce energy consumption by **up to 75%**.

15% roof lights reduce the need for additional daytime lighting and provide a light, bright environment for your employees.

BREEAM Excellent rating targeted placing this warehouse in the top 10% of warehouses in the UK for sustainability.

With an **EPC A+ rating**, customers can lower their energy bills, all whilst delivering net zero carbon offices.

“

We know that people and the planet are important to you – they're important to us too.

That's why all our new buildings are built to our Swan Standard and have sustainable features as standard, which will help you reduce operational costs whilst realising your ESG ambitions.

The sustainable nature of our buildings also means they are warm, bright spaces in which to work – which is good news for your employees and the environment.

Let's talk

07811 304 316
ben.silcock@stmodwen.co.uk

At St. Modwen Logistics our aim is simple: to provide our customers with the high-performing space they need to succeed

Sarwjit Sambhi,
Chief Executive Officer

With our Chippenham site, we knew it was going to be our biggest warehouse to date, so the need to appeal to local talent was more pertinent than ever.

We were impressed by the range of wellbeing facilities on offer in the warehouse space, which we saw would make it easier to recruit the best people. We have amazingly rich local amenities – from the park and fitness trail to outdoor seating areas where people can eat lunch together. We have been able to create hundreds of jobs since opening last year in a space where everyone genuinely enjoys coming to work.

Huboo, St. Modwen Park Chippenham

The Swan standard

St. Modwen Parks embody our core purpose – to change places and create better futures.

The Swan Standard delivers improved quality, sustainable and consistent developments across the St. Modwen Logistics portfolio that impact positively on both the environment and local communities.

Through thoughtful and considered design, we have crafted a philosophy that we believe will have positive and tangible benefits for our customers.

High quality office and warehouse specification, designed with the customer in mind, focusing on health and wellbeing, sustainability and net carbon reduction.

- 75% enhancement on building regulations for air leakage
- 30% better than current requirements for embedded carbon
- Delivered by industry leading supply chain
- Sustainable environments addressing wellbeing
- Designed for flexibility and low operational cost
- Quality materials throughout
- Operational life cycle recycling
- Flexible office space for future fitout
- Low energy use
- Net carbon zero embedded
