- Short term flexible space immediately available
- 150 + bed 4 star Hotel with leisure facilities
- Generous on-site car parking
- Direct access from Dyce Drive and new Airport
Link Road/Aberdeen Western Peripheral Route

The Vision

Aberdeen Unrivalled Location

The oil and gas capital of Europe, Aberdeen, is Scotland's third largest city with a population of approximately 210,000 and a regional catchment population of over 500,000. Located 120 miles north of Edinburgh, Aberdeen is the administrative capital of the North East of Scotland and benefits from an expanding international airport and harbour, seven major research institutes, together with world renowned food, fisheries and agricultural research establishments.

The City delivers a highly skilled and motivated workforce and is home to 30,000 students courtesy of the City's two leading universities, the University of Aberdeen and Robert Gordon University.

One of the UK's most prosperous cities, Aberdeen is recognised internationally as a global centre of excellence in the energy industry. The City also benefits from companies operating in the renewable energy, life sciences and technology sectors all helping to make Aberdeen the second most dynamic business location in the UK after London.

The continuing strength of Aberdeen's economy has consistently outperformed national and international trends with its high wage, high skills base, consistently low levels of unemployment and a GDP per worker, which is the highest in Scotland. A recent Demos-PwC study* ranked Aberdeen the top Scottish City for economic success and second in the U.K. The City is a key engine of the Scottish and UK economies and offers major opportunities for growth.

* Report produced November 2014

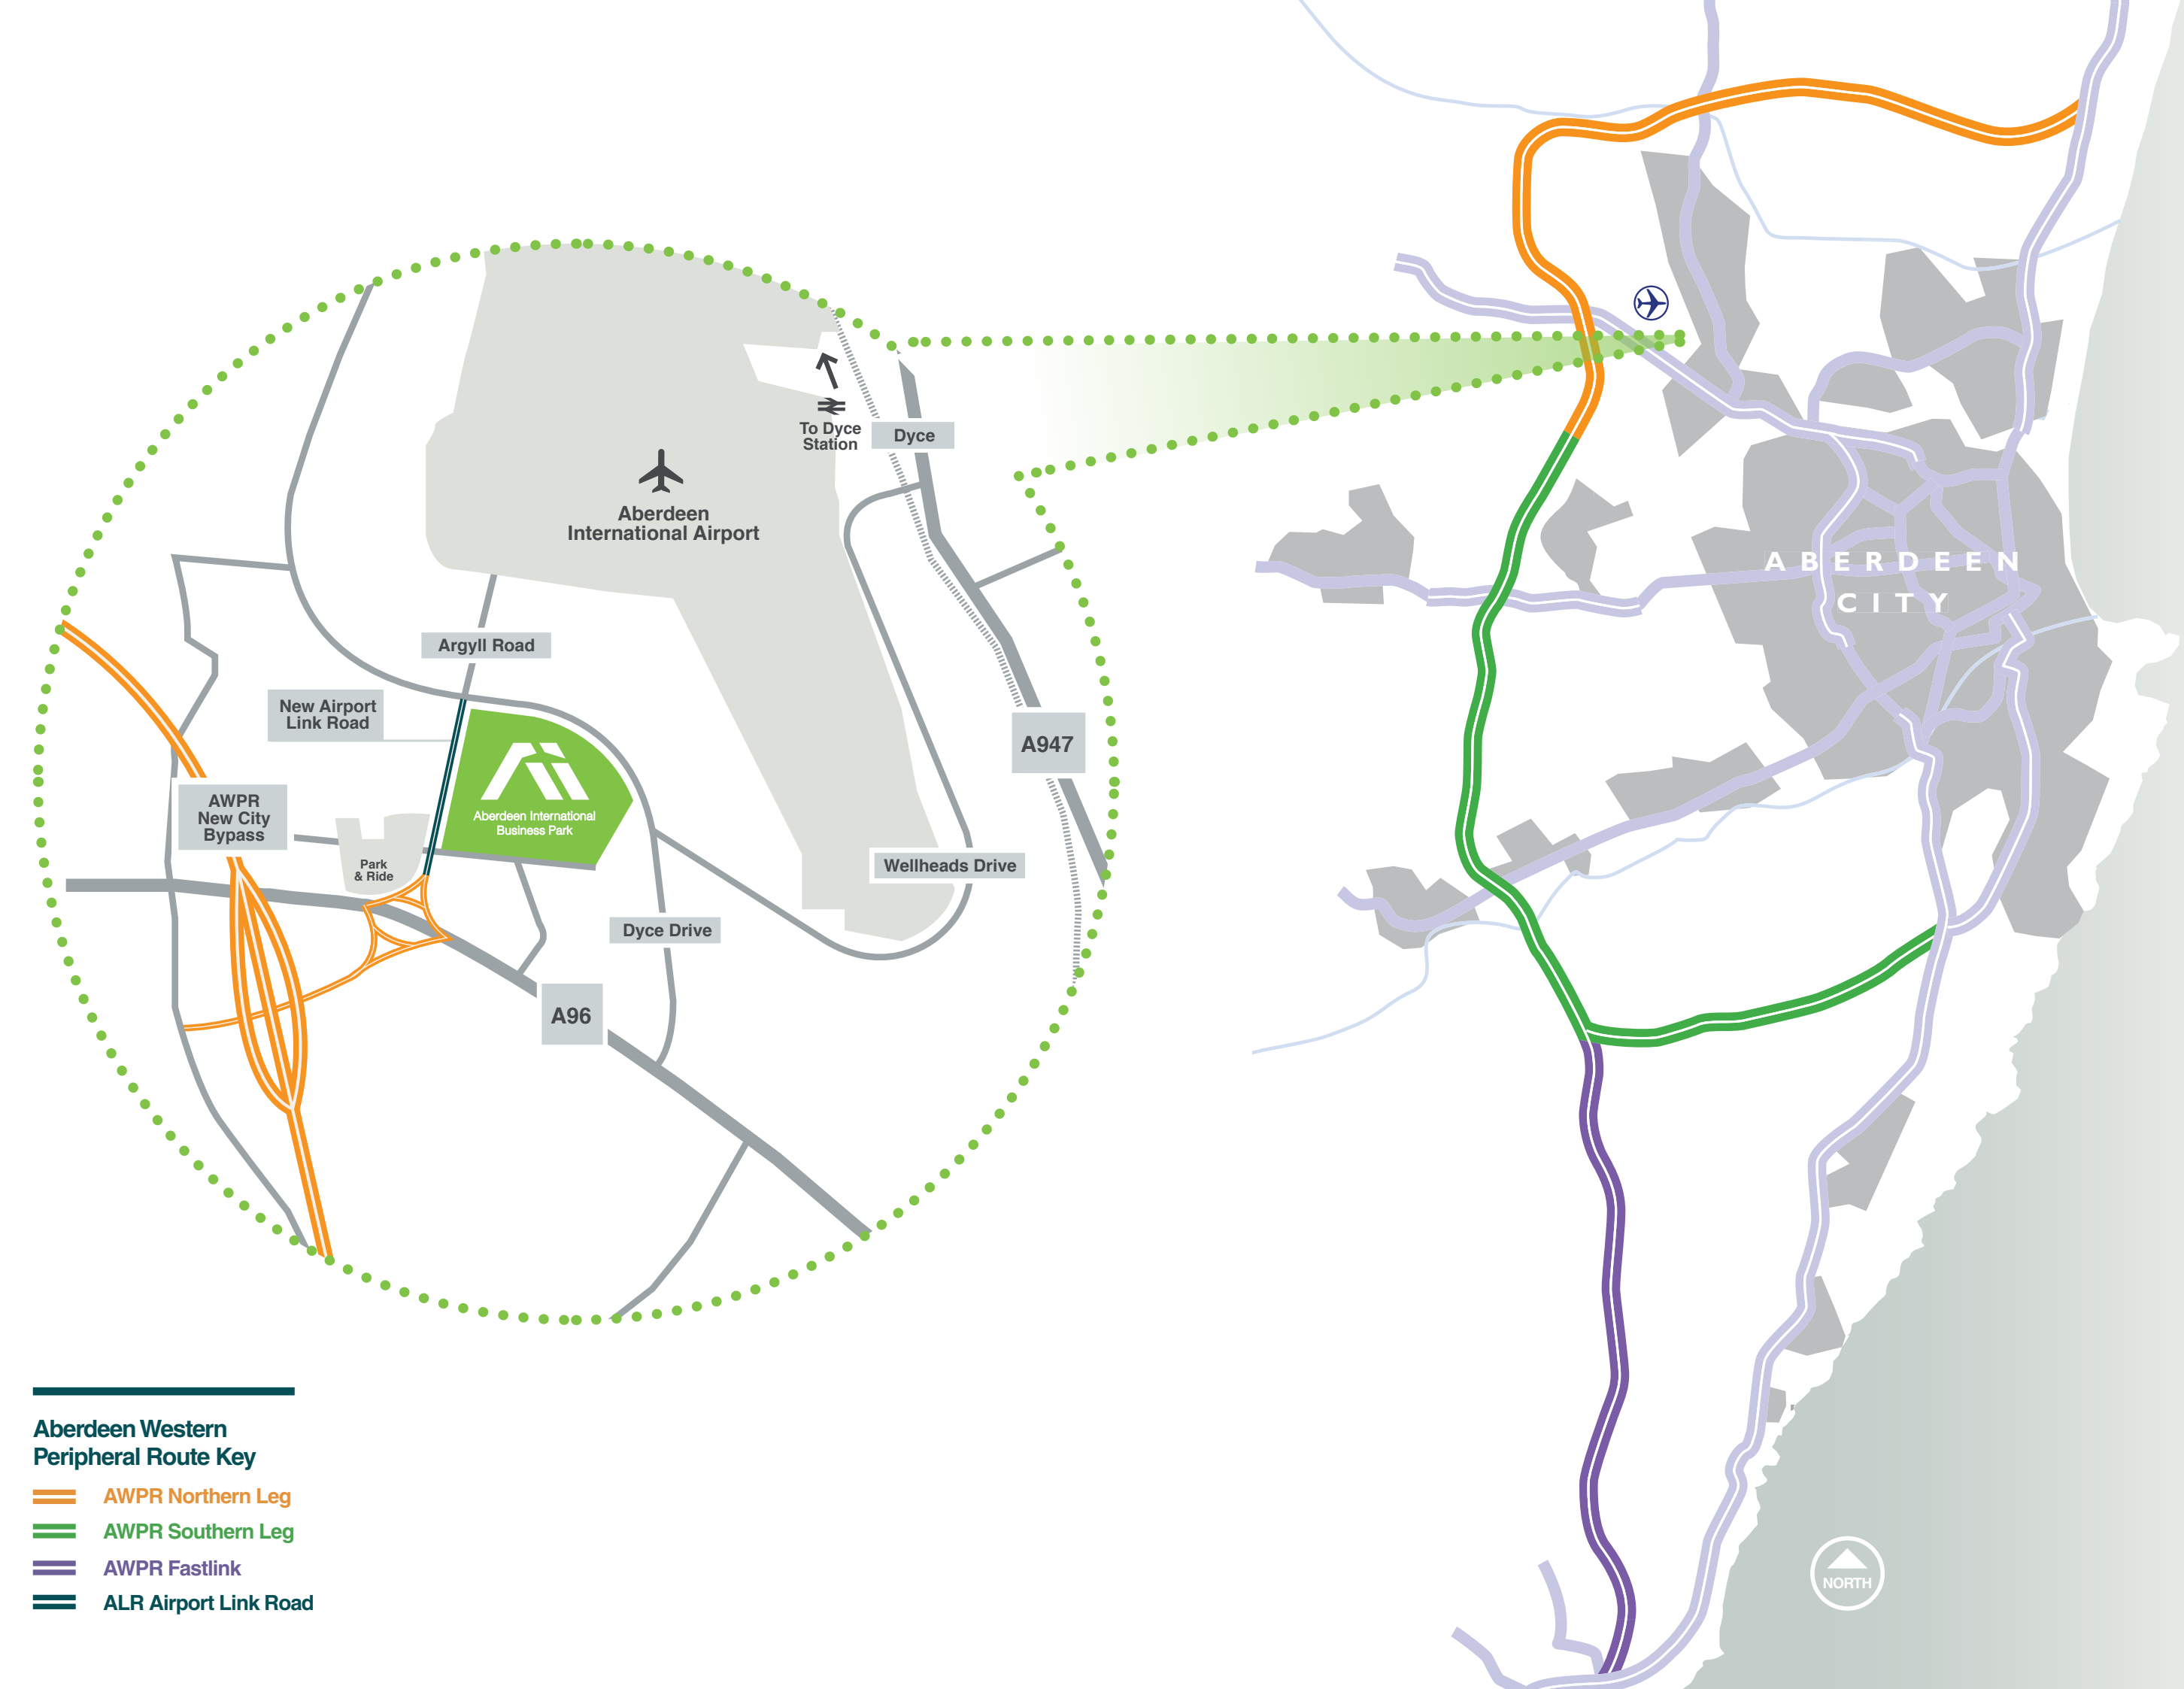

One of Aberdeen International Business Park's great strengths is its enviable location delivering unbeatable access to all modes of transport.

Road links are excellent with the Park strategically located immediately off the A96 trunk road which in turn accesses the A90 connecting to the Scottish motorway network, making Edinburgh and Glasgow accessible in approximately two and a half hours. Accessibility is about to improve further with the commencement of the Aberdeen Western Peripheral Route (AWPR) which is scheduled to complete in Q4 2017. This will connect with the new Airport Link Road, scheduled to complete in Q1 2016.

Aberdeen International Airport, incorporating Europe's busiest commercial heliport, lies immediately adjacent. Around 20 airlines offer connections to over 40 destinations including all major UK airports and European destinations including Paris, Frankfurt, Amsterdam, Copenhagen, Oslo and Stavanger.

Dyce railway station, located to the east of the airport, offers services north and south to Inverness and Aberdeen City Centre and connections to towns and cities throughout the UK.

Boasting 1,000 spaces and scheduled to open Q1 2016, the Park will benefit from a nearby park and ride facility. Main access will be from the new Airport Link Road and a southbound slip road from the A96.
