

Globe Point

COMMUNICATIONS STRATEGY

At Globe Point we understand how much there is to consider when moving offices. Therefore, we have partnered with aql, a trusted communications provider, to offer a range of Internet Connectivity Services already in place to allow your business to smoothly transition to Globe Point.

FAST CONNECTION

Globe Point, teamed with aql, can provide diverse enterprise-grade Internet Connectivity to each tenant space with equipment pre-installed within the building enabling same day connectivity.

aql additional features include flexible and tailored packages including breakout to different ISPs, backed up by dedicated 24/7/365 support with a 99.95% uptime guarantee. aql has been operating for 20 plus years with local support staff and engineers.

SPEED AND CAPACITY

aql can provide speeds from 1 Gbps to 10 Gbps offered via its own highly secure datacentres. Connectivity comes via two diverse routes providing optimal resilience.

Three-month minimum contractual commitment with simple terms and conditions means your business can get connected quickly and grow as required in a secure manner.

aql PRICING
