ESG Features

Improved environmental benefits and lower energy expenses for a more sustainable future.

Energy Performance Certificate

Targeting EPC A the highest energy efficiency rating for buildings.

PV Strategy

Occupiers can expect an annual saving of £8,500 based on 25p / kWh electricity unit rate (subject to all generation being used on site). This is based on the proposed 40 kWp system being installed and an annual energy generation of c.34,000 kWh.

Solar PV Panels

Roof mounted solar PV panels to assist in generating electricity, reducing energy costs.

LED Lighting

Energy efficient LED lighting used throughout the building.

10% Rooflight Coverage

Triple-layered rooflights with insulation covering 10% of the roof area and providing optimum natural light and energy efficiency.

Electric Vehicle Charging

Charge electric vehicles quickly and easily with our state-of-the-art charging stations.

End of Journey Facilities

End of journey facilities with secure bicycle storage, showers and change facilities.
