Mikaela says:

"It's all about location location location with this great property! You're within walking distance to the hospital which is great for the many medical professionals working nearby, as well as being within walking distance to the city. To the front, this home benefits from side by side driveway parking as well as a carport. It's also on a road where parking is permit only, so even less risk of the street being cluttered with cars! Inside, the hallway leads through into a bright and inviting living room with a big bay window and plenty of space for furniture. There's also a kitchen diner which has a spacious dining area big enough for a family sized dining table, as well as cupboard and worktop space. There's even a conservatory that the current owners are using as a utility room. It's plenty big enough for multiple white goods and you could easily incorporate some furniture. Upstairs there are two generously sized bedrooms, the master benefitting from fitted sliding wardrobes and a large bay window. There's even a good sized family bathroom upstairs with a shower over the bath. Outside to the rear, there's a lovely garden which is mainly grass. There's also a patio area for outdoor furniture and space for a shed which the owners have currently. The real bonus of the back garden is that there's nothing behind you, just a lovely green space!"

A message from the seller:

"We've loved living here! It was our first house as a newly-married couple and has really felt like home for us, but we are now having to upsize as we hope to start a family. It's been great for working at the hospital, as well as being close to Kingsway and just opposite Darcy's!"
