A BEAUTIFULLY CONVERTED 4-BEDROOM STONE BARN OFFERING LIGHT-FILLED, SPACIOUS ACCOMMODATION, SET WITHIN APPROXIMATELY 1.1 ACRES OF STUNNING GARDENS, NESTLED IN A QUIET AND PEACEFUL HAMLET

An aerial photograph of a large, three-story stone barn conversion. The building has a dark grey roof and a prominent chimney. It is surrounded by a vast, green garden with many trees, some of which are in full bloom with white flowers. A gravel driveway leads to the property. In the background, there are rolling green hills and a small village under a blue sky with scattered clouds.

PROPERTY

Mary Barn is located in a tranquil hamlet just outside the village of Breage, and only a short distance from the vibrant market town of Helston and the stunning harbour village of Porthleven. This charming barn conversion retains many of its original features while having been sympathetically modernised to create a spacious and light-filled family home.

The kitchen/diner is a bright and generous space, featuring granite work surfaces, a central island, and views over the garden beyond – creating an ideal setting for cooking and entertaining. The adjacent sitting room is equally spacious, with floor-to-ceiling windows and doors that flood the room with natural light and offer a welcoming space to relax. A further sun room adds to the living space, with a barn-style door and sliding doors opening out to the patio and garden, creating another peaceful retreat. The well-proportioned master bedroom with en suite is conveniently located on the ground floor, along with a family bathroom. Upstairs, there are three further good-sized bedrooms and an additional family bathroom serving this level.

Outside, the gardens and grounds extend to approximately 1.1 acres and form a key part of what makes this property so special. Thoughtfully planted and wonderfully peaceful, there are numerous areas in which to relax and entertain. At the far end of the garden, there is a very large carport and an attached storage shed, with ample parking for over five vehicles. The inclusion of ground source heating, solar PV panels, and an EV charging point makes this an attractive option for those seeking a character property with a reduced carbon footprint.
