Important Information Regarding Historic Subsidence:

We have been advised by the sellers that the property previously experienced subsidence, which they understand was addressed in October 1996. A completion certificate is available confirming that works were carried out at the time; however, no schedule of works or detailed documentation is available to verify the exact nature or extent of the remedial works undertaken.

Potential buyers should treat this as material information and are strongly advised to carry out their own investigations and obtain independent advice prior to making any commitment to purchase.
