SETTING THE SCENE

The property is accessed via an entrance through the brick walls leading to a concrete driveway suitable for multiple vehicle parking with a shingle garden space just beyond and access directly into the garage with electric roller door to the front.

THE GRAND TOUR

As you enter the property, you are first met with a slightly widened hallway complete with porch style access and useful coat storage to your right leading onto the solid wood flooring which adorns the space on the ground floor. Stepping through one of the many oak internal doors to your right, you will find yourself within the dual aspect sitting room offering a media wall with fireplace below. The large uPVC double glazed window to the front has fitted blinds, whilst the rear of the space has sliding doors into a rear garden decking seating area. An access door to the rear of the room has been hidden and built into the panelling on the wall and grants seamless access into the laundry room complete with additional storage spaces and plumbing for a washing machine. The garage and rear garden can also be accessed from this space. The centre of the property offers space for the immaculately designed kitchen complete with tiled splash backs and a multitude of wall and base level storage units. This space is also fitted with an array of integrated appliances such as dual ovens and microwave, fridge/freezer, dishwasher, induction hob and inset ceramic sink. Towards the end of the hallway is a walk in shower room with a fully tiled surround and corner shower unit plus a frosted glass window into the rear garden. The first of the three bedrooms located on the ground floor has the same solid wood flooring underfoot and is currently serving as a dressing room and study. This space could easily be utilized for the same use or turned into a fifth bedroom with a rear facing aspect. Two further bedrooms are found on the ground floor, both with front facing aspects. The larger of the rooms will comfortably fit a double bed and additional storage units, while the smaller of the two is the ideal single bedroom with space for additional storage. Heading towards the first floor landing where you can access both of the double bedrooms and family bathroom, there is an additional storage cupboard accessed from here.

Standing at the top of the stairs and turning right is the first of the two double bedrooms with wall to wall built in storage wardrobes and a vaulted ceiling housing a large Velux window allowing this room to bask in natural light. Sitting adjacent is the larger second bedroom with built in wardrobes and additional storage units set around carpeted flooring with a similarly sized Velux window set upon the vaulted ceiling. In between both bedrooms is a four piece family bathroom with a walk in shower unit and separate bath, wall mounted radiator and Velux window, all immaculately presented with a fully tiled surround.
