**Hen Wythva Parc,
Camborne**

**£425,000
Freehold**

Hen Wythva Parc, Camborne

£425,000 Freehold

Property Introduction

Situated on a mature development close to the town centre, this detached family home offers 'low cost' living with the benefit of solar panels incorporating a 'Tesla' battery back up resulting in an 'A' rated EPC Energy performance certificate. The accommodation, which is over three floors, consists of four bedrooms with the principal bedroom having an en-suite, there is a separate lounge and dining room, fitted kitchen and on the ground floor a utility room. Heating is provided by a gas combination boiler, there is uPVC double glazing and the integral garage has a store/workshop to the rear. To the outside one will find a lawned garden to the front with driveway parking whilst the rear garden is enclosed and largely laid to lawn. Our vendor has informed us that the house has thirteen solar panels which are owned by the property and a 'Tesla' battery storage system, meaning that it is largely self-powered between March and October. The free and stored energy, along with the Feed In Tariff, provides savings in the region of £1600.00 or more per year. Since October 2019, the savings have been worth in excess of £5000.00. In summary, an individual family home with the benefit of low running costs, viewing our interactive virtual tour is strongly recommended prior to arranging a closer inspection.

Location

Camborne which is steeped in mining history, offers a comprehensive range of both local and national shopping outlets together with banks and a mainline Railway Station which connects with London Paddington and the north of the country. Schooling is available for all ages and the A30 trunk road is located to the north of the town. Portreath on the north coast is within four miles and the south coast University town of Falmouth is within fourteen miles. Truro, the administrative and cultural centre of Cornwall, is only fifteen miles away.
