

Situated in the heart of the highly sought-after Staffordshire village of Marchington, this spacious detached home has recently undergone an extensive renovation and extension programme, including a recently installed solar panels and air-source heat pump. The property boasts captivating open views to the rear and enjoys an enviable location within Marchington village, known for its vibrant community spirit and rich amenities, including a first school, community shop, pub-restaurant, village hall, and church. The wonderful rear aspect backs onto grazing fields and a wonderfully serene outlook.

This impressive family home blends striking curb appeal with a beautifully refurbished interior. Offering generous space throughout, the property features four double bedrooms and three bathrooms, making it ideal for modern family living. A side porch currently functions as a pantry, but can easily be converted into a laundry area. The newly constructed en suite has been finished to a high standard, with quality plumbing connecting directly to the mains (not a macerator toilet). Recent upgrades include a newly installed air source heat pump system and solar panels, significantly boosting energy efficiency and resulting in an exceptional EPC rating of "A." Solar battery available via separate negotiation.

Outdoor living is equally impressive, with a landscaped garden enjoying open rural views. A patio verandah seamlessly connects the indoors to the outdoors, creating an inviting space for relaxation and entertaining.

To the rear, a large detached timber outbuilding—equipped with kitchen units, TV point, heating, and internet—is currently used as a workshop but is perfectly suited as a home office, studio, or hobby room.

Viewing by appointment only.

Property Information

The house has the benefit of air source heating with xl4 solar panels to the rear roof. The supply is a tariff from Octopus energy. Please note the battery packs will not be included in the sale.

The detached timber building (currently used as a workshop) is fully insulated, heated, has internet supply and comes with fitted kitchen units.
