A delightful house, situated in a prime location for its views and tranquillity, only a five-minute walk to Sóller's central square.

The entrance leads onto the living room and a haven of peace... From here we access the kitchen, dining room and laundry room, a guest bathroom, and the wonderful sunny patio, a haven of peace, where time seems to stand still...

On the first floor there are two bedrooms and a bathroom, and on the top floor there is the large master bedroom with en-suite bathroom and incomparable views of the valley with the sea in the background... There is also a practical storage room.

With a careful renovation, this house will become an exceptional retreat, although it can be lived in as it is, as the current owners have been doing for many years with great pleasure. Natural light and sun all year round are guaranteed. An opportunity to create your own idyllic spot in the centre of Sóller!
