This stone cottage of approx. 70 m² constructed area is located in a paradisiac setting, where tranquillity is the rule, and panoramic views are the main feature wherever you look...The property is divided into two volumes: the main one consists of two bedrooms and a bathroom, and annexed is the kitchen, both surrounded by terraces where you can enjoy the good Mallorcan weather.

The privacy is absolute and, without any doubt, it is difficult to find a refuge in Sóller with such characteristics. It has a plot of approx. 7.000 m² which guarantees the aforementioned.
