The Property

Coming to the market for the first time in four decades, this substantial family home with an annexe sits on nine acres of land, all accessed via its own private quarter-mile lane.

Positioned in the heart of its own stunning rural setting, the property offers true tranquillity and the potential for complete self-sustainability.

The main house is currently configured as a five-bedroom home, featuring a music room, a games room, and a spacious living/family room. Additionally, the self-contained annexe includes two bedrooms, a kitchen, a dining room, and a generous living room.

With the added benefit of various outbuildings, workshops, a large barn, and a double garage, the property is ideal for those looking to establish a smallholding or run a business from home. There is also potential for development, as certain parcels of land have their own access points—subject to obtaining the necessary planning permissions.

Heating is provided by solar panels and an air-source heat pump, while water is supplied via a private borehole, and drainage is managed by a septic tank. These features combine to create a cost-effective and eco-friendly family retreat.

Full Accommodation can be found listed below.

The Land and Grounds

The land is accessed via a private, gated lane, leading to a spacious area that includes a well-sized, two-story barn. This barn offers potential for development, subject to the necessary planning permissions. Additionally, there is a gated entrance to the fields at the front of the house, which extend all the way down to the main road running through the hamlet.

To the rear of the property, there is a generously sized orchard with a beautiful variety of fruit trees. Adjacent to this is a peaceful area designed for relaxation, featuring a large pond and a summer house.

The entire setting is rich in wildlife, making it a haven for nature lovers.
