The recruitment pool here is more loyal than London. We work with a number of the other occupiers - there is a financial benefit to being based at Lakeside.

Ian Cox

I've worked at Lakeside since 2006 and when I first arrived there were three people in a building capable of holding nearly 3,000. It's fantastic to see how the site has developed, and raised the profile of Portsmouth along with it. We're passionate about providing the best possible environment for our occupiers, with a focus on sustainability too - we always have our eyes set firmly on the future.

Karen Meehan

The team at Lakeside is amazing and the campus is a really supportive environment. I felt immediately at home and I want everyone visiting or working at Lakeside to feel as welcome as I do. We work with you to make the transition to your new home as easy as possible, whether that's understanding your visitor management policy or having a cup of coffee and a tour with your office manager - nothing is too big or too small.

- Karen Meehan, Front of House Manager
