Individual Building plots in this area are relatively few and far between meaning one is often reliant on the opportunity of development of a large garden area or as in the case of this particular DETACHED BUNGALOW, demolition and re-construction. Although the planning consent (**M/92/21/PL**) has lapsed, previous permission was granted for the '**Demolition of existing bungalow & construction of 1 No 2-storey dwelling with access & off road parking.**' The lapsed consent also included the following clause '**This site is in CIL Zone 4 & is CIL Liable as new dwelling**'. The current building is of timber and asbestos construction and sits on a plot of approximately 0.08 acre, backing onto a woodland setting, situated within the private Elmer Sands estate some 450 yards from the beach. Offered for sale in need of significant modernisation in its present form, potential purchasers must satisfy themselves as to the most effective way forward with this property. For an opportunity to view this development project contact May's.
