Who says building in the 1960's was bland and unimaginative ? Take a look at this **GEORGIAN STYLE END TERRACE HOUSE** and I feel sure that you will recognise why this development was singled out for particular praise from the architectural establishment. Set in a 'horseshoe' style raised crescent, with the Norman church forming a backdrop, this development lies within 50 yards of the village centre, thus providing a central yet unobtrusive location for convenient living. Offered for sale with the benefit of **gas fired central heating plus uPVC framed double glazing**, however, the property is best described as in need of some 'tlc' !. With generously proportioned rooms plus a ground floor Cloakroom, this property is well worth an internal inspection to fully appreciate all of the features on offer, and has been priced to reflect the level of improvement needed to fulfil its potential. For an appointment to view, contact **May's** - this may be just what you have been looking for.
