

Hillcrest View

COPPLESTONE

A lifestyle above the ordinary

FIVE EXCEPTIONAL HOMES. THREE DISTINCTIVE DESIGNS.
ONE UNSPOILT SETTING.

Nestled on the gentle rise of Bewdley Hill and surrounded by rolling Devon countryside, Hillcrest View is a rare collection of just five architect-designed homes, where every detail speaks to luxury, craftsmanship and a life well lived.

Whether you're enjoying your morning coffee with views across patchwork fields or arriving home to the quiet comfort of rural calm, this is a place where nature and design come together in harmony.

And for those seeking more space, additional land is available via separate negotiation—offering the potential for equestrian use, expansive gardens or further lifestyle enhancements.

Inside Each Home

Each property at Hillcrest View is an individually crafted sanctuary, where elegant design meets intelligent function.

Vaulted ceilings and oversized aluminium windows invite natural light to flood through expansive open-plan spaces. Carefully curated materials—such as Thermally modified timber cladding, standing seam metal roofs, Luxury Armera Stone bathrooms, and bespoke System Six kitchens—deliver a clean, contemporary aesthetic softened by natural tones and textures.

Whether you choose The Oak, The Cedar, or The Willow, every home comes with a double garage, beautifully landscaped gardens, and interiors ready for you to make your mark.

A Place to Breathe

Hillcrest View isn't just about beautifully built homes. It's about redefining what home means.
