This premier positioning would make the apartment ideal either for those seeking to downsize to an incredibly spacious Penthouse in one of the South's true hotspots or even for those desiring a beachside second home with an abundance of space.

Having been completely refurbished to an extremely high standard, the Penthouse is set in the far wing of this purpose built block and as such is the furthest apartment away from the road whilst also benefiting from a superb south-westerly outlook over the treetops and the communal swimming pool solely for the use of the residents of this block and its sister block.

With direct lift access into the apartment itself, one is immediately struck by the sheer scale of the apartment, with simply incredible living space on offer.

In its current configuration, the Penthouse boasts a large dual aspect living room, four large bedrooms including a master en-suite. There is an open plan kitchen/breakfast room and sitting room along with the family bathroom and separate wc. The snug could be a further living room/dining room/5th bedroom. There is also an abundance of storage space.

Outside, the Penthouse benefits from a huge roof terrace along with a further large south westerly facing balcony. An oversize double garage is also conveyed with the property.

Penthouses of this scale rarely come to the market so do act quick to avoid disappointment!
