**1 CHATTOCK GARDENS
SOLIHULL
B91 1JY**

A true one of a kind – an ultracontemporary home with a jaw dropping reveal over two spacious floors, allied with an unbeatable location in a secluded space along a private drive. This is not simply a property; it is a lifestyle, proof that radical sustainability, architectural finesse and everyday liveability can coexist beneath the most unassuming of silhouettes.

1 Chattock Gardens

Surrounded by trees yet situated off one of Solihull's premier residential roads and only a short stroll from both John Lewis and Solihull station, on a mainline from Birmingham to London, as well as ten minute drive to Birmingham International Airport and Station (another mainline to London) and the new HS2 hub. This RIBA award-winning four-bedroom home by Khoury Architects overturns every preconception of eco living. Triple-glazed courtyard walls and roof-height sliding panels stream daylight deep into every area. At ground level, crisp rendered masonry and low-maintenance Trespa® cladding sit quietly in the landscape, their understatement the perfect prelude to the drama within.

For the buyer who values architectural integrity, environmental stewardship and quiet sophistication, 1 Chattock Gardens is a rare opportunity: an almost invisible home that leaves an indelible impression.

Living & entertaining

- Dual-aspect lounge at garden level catches golden light morning and evening, while the bespoke, rusted steel stairs add an artisanal edge.
- Open-plan kitchen–dining space is the heart of the house connecting double height dining atrium, courtyard and adjacent pool chill zone.
- A four-seat cinema snug with reclining sofas delivers true “dark-room” immersion for film nights as well as being a cosy second lounge just off the kitchen dining living space.

Wellness & leisure

- Indoor pool with a zen, spa like calmness.
- Quiet sun-traps at each compass point let you follow the light—or retreat from it—in complete privacy.
- A cooled wine cellar perfect to store and enjoy your wine collection.

Sleeping quarters

- The calm master suite with courtyard outlook, private sun-deck and picture-perfect bath-scape behind floor-to-ceiling glazing offers a peaceful retreat.
- A naturally cool, north-facing guest room—nick-named the summer suite—remains blissful on the hottest days; two further bedrooms can be grouped as a self-contained family or multigenerational wing.

Engineering & sustainability

- 300 mm concrete walls, 200 mm of external insulation and wild-flower meadow roof deliver Code for Sustainable Homes Level 5 performance.
- Air-source heat pump, under-floor heating, MVHR with a geothermal intake loop (ground-temperatures a steady 13 °C) and 4 kW photovoltaic array (£1,300–£1,400 annual FIT income, plus RHI on the heat pump).
- Three-phase electrics already in place should future owners wish to add battery storage or expand the PV array.
- Rainwater harvesting system installed; wine cellar, plant room and extensive storage keep everyday life out of sight
- A discreet dumb-waiter whisks groceries from garage to kitchen.
